

**PRISM**  
**Risk Control**  
**Presents**

This interactive workshop focuses on control strategies for workplace violence (WPV) hazards. The target audience for the workshop includes those responsible for managing WPV hazards at the workgroup, department, and/or organizational level. Participants will receive best practice information and resources on:

- hazard identification principles;
- risk assessment strategies; and
- how to incorporate corrective action into a WPV Prevention Plan.
