INTRODUCTORY SECTION

December 1, 2015

Members, Board of Directors
CSAC Excess Insurance Authority

Ladies and Gentlemen:

The Comprehensive Annual Financial Report of the CSAC Excess Insurance Authority (the EIA or the Authority) for the year ended June 30, 2015, is hereby respectfully submitted. The Authority's Finance Department prepared this report. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the EIA. Based upon our comprehensive framework of internal control, we believe the data is accurate in all material respects; that it fairly sets forth the financial position and results of operations of the EIA, as measured by the financial activity of its various programs and policy periods, and that all necessary disclosures for understanding the Authority's financial affairs have been included.

Gilbert Associates Inc., Certified Public Accountants, has issued an unmodified opinion that the Authority's financial statements, for the fiscal year ended June 30, 2015, are fairly presented in conformity with Generally Accepted Accounting Principles. The independent auditor's report is presented as the first component of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report. The MD&A provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

CSAC EXCESS INSURANCE AUTHORITY PROFILE

CSAC Excess Insurance Authority is a Joint Powers Authority (JPA) established under Article 1, Chapter 5, Division 7, Title I of the California Government Code (§ 6500 et seq.) in October 1979. The EIA operates programs for excess and primary workers' compensation, two excess liability programs, a primary liability program, a property program, a medical malpractice program, a master rolling owner controlled insurance program, an employee health benefit program, a dental program and miscellaneous programs for other coverages. The EIA also provides support services for selected programs such as claims administration, risk management, claims audits, loss prevention and training, and subsidies for actuarial studies and risk management services.

Chief Executive Officer: Michael Fleming

Legal Counsel: Stephen Underwood

Chief Operating Officer: Gina Dean

The EIA provides two classes of membership – county members (county entities maintaining their membership in the California State Association of Counties) and public entity members (any other public entity in California). The 62 member Board of Directors is comprised of representatives from each of the 55 county members appointed by their respective boards of supervisors, and seven public entity representatives (plus three alternates) elected by the public entity membership. The 11 member Executive Committee includes two seats specifically designated for public entity members of the Board of Directors. The day-to-day operations of the EIA are conducted by the Chief Executive Officer who is responsible for the administration of policies set forth by the Joint Powers Agreement, Bylaws, Board of Directors and Executive Committee.

The EIA's reporting entity includes financial activities relating to all programs and insurance pools of the Authority.

INSURANCE MARKET CONDITION AND OUTLOOK

The EIA operates in an environment that is affected by the overall insurance market. The insurance market operates in cycles that tend to shift every few years. When rates are high and the competition is low, we are said to be in a hard market. When rates are low and competition is aggressive, we are in a soft insurance market. The amount of surplus capacity, or insurance market capitalization, is the prime factor that creates a soft market. The market moves and turns based upon overall profitability. Profitability is affected by both catastrophic losses and sustained periods of better or worse than expected losses, and investment returns.

Current market trends (October 2015):

Generally speaking, we are currently in a soft market cycle, but the degree varies by line of coverage and is dependent on our actual loss experience. We are expecting property rates to remain flat in the near term. There is pressure on excess WC rates to go higher, as various reinsurers grapple with the long tail exposure on future medical claims. For the 2015/16 renewal we had to replace our carriers on both excess liability programs due to insurers leaving the California public entity market place. Though we successfully placed coverage, marketing public entity general liability coverage will continue to be challenging. Also carriers are scrutinizing our civil rights claims arising out of jail operations in the Medical Malpractice program. Despite this we were able to obtain a two year commitment from our long time carrier, Lexington. On the employee benefits side, the EIAHealth program continues to be competitive with CalPERS. Life and Disability rates are unchanged, and the Dental program is strategically lowering rates based on positive loss experience.

EIA RESPONSE TO MARKET CONDITIONS

To mitigate the impact of a hard market cycle, the EIA has entered into multi-year agreements, wherever possible. Such multi-year agreements limit the amount of increases in subsequent years and promote long term relationships with insurers. We also have the ability to assume more risk and purchase less reinsurance if rates destabilize. Since fiscal 2009, we have been able to purchase insurance to limit our pool exposure in our workers' compensation programs. We also added an "Educational Tower" with a new carrier in our Excess Workers Compensation program. In the EIA's Property program, we have taken the additional step of pre-paying the primary coverage on a three-year basis. Because the EIA's Medical Malpractice program's insurance layer is written on an occurrence basis, we can switch from an occurrence to claims made policy, if the market hardens. These are just some examples of how we have adjusted program structures to take advantage of market opportunities.

The Authority's programs have proven to be effective in both hard and soft insurance markets. We have seen that in a hard market, the cost to our members raises accordingly, competition decreases and the value of the Authority's programs, compared to the alternatives available, is even greater than it is in a soft market.

MEMBERSHIP

The EIA has 317 members, including seven new public entity members. The 55 member counties represent more than a 95% market share of the 58 California counties. Public entity membership consists of 233 individual cities, schools, or special districts, and 29 joint powers authorities consisting of pools of cities, schools, or special districts, for a total of 262 public entity members. The county and public entity members collectively represent over 1,900 public agencies. As of June 30, 2015, it is estimated that 65% of all cities in California were covered by the EIA, either as a direct member or through a member JPA.

County and public entity members actively participate in Authority policy making and governance by their committee service. Sixty-two county employees participate on various committees as do 49 different public entity members.

SERVICES AND PROGRAMS

EIA members have established ten major group coverage programs. These ten coverage programs are described in greater detail on the following pages and include Primary Workers' Compensation, Excess Workers' Compensation, Primary General Liability, General Liability I, General Liability II, Property, Medical Malpractice, Master Rolling Owner Controlled Insurance Program, EIAHealth, and Dental.

In addition to the ten major coverage programs, the EIA sponsors group purchase insurance policies that are available to all California public entities – members and non-members. These Miscellaneous Programs cover exposures for cyber liability, watercraft, aviation liability, crime and faithful performance, pollution liability, catastrophic inmate medical, and course of construction. Members are also able to purchase group discounted excess limits, on an optional basis, for most of the major programs. The EIA sponsors employee benefits programs, such as the Employee Assistance Program, Vision, Long-Term Disability and Life and AD&D. The EIA and the California State Association of Counties jointly sponsor a Personal Lines Insurance Program (PLIP) that offers homeowners, personal auto and various types of supplemental insurance to employees of participating members.

The EIA has implemented numerous innovative risk management services designed to assist all members in effectively administering their self-insured programs. Such services include claims audits, actuarial study subsidies, real and personal property appraisals, financial subsidies for risk management, and assistance with loss prevention activities including financial subsidies, resources and training. In 2015, we started a pilot Labor Law program to mitigate potential employment practice claims in the WC or Liability programs.

The EIA has evaluated its services and concluded there is a strong demand from the membership for additional high quality services. In response, the EIA is in the process of establishing a Member Services Department in the 2015/16 fiscal year. Member Services will be responsible for coordination of all services and will focus on expanding service offerings to the membership.

PRIMARY WORKERS' COMPENSATION

The Primary Workers' Compensation (PWC) Program provides Excess Workers' Compensation (EWC) Program members the opportunity to convert their \$125 thousand self-insured retention in the EWC Program to first dollar coverage. The Program provides members with claims administration services, and several cost containment programs, including a Medical Provider Network and a Return to Work Program. The Program pays for claims with a blending of pooling and excess insurance. Since July 1, 2009, the structure of the PWC Program provides that the first \$10 thousand of each claim is paid out of the Program's pool and the Program's excess insurer pays for the balance of the claim, up to the program limit of \$125 thousand.

Since fiscal year 2007/08, the PWC Committee has declared dividends every year. Dividends to date total \$46.5 million, and the Committee plans to continue its dividend program with \$3 million budgeted for fiscal year 2015/16.

EXCESS WORKERS' COMPENSATION

The Excess Workers' Compensation (EWC) Program provides members with statutory coverage for workers' compensation subject to the members' self-insured retentions ranging from \$125 thousand to \$5 million. Because members maintain self-insured retentions in this Program, they are able to manage their own claims, either through a third party of their choice or with their own claims staff. The Program funds a \$5 million pool and purchases reinsurance to achieve statutory limits. In January 2015, we added a major new member, California State University Risk Management Authority and its auxiliary organizations, enabling the program to add a new carrier, Safety National and create an Educational Tower. With this tower we are able to offer more competitive rates for schools and colleges.

The EIA is always looking for opportunities to protect the pool exposure by purchasing reinsurance from the commercial market. In 2012/13 the EIA established a relationship with a new reinsurer, AmTrust, and restructured the SIR to \$5 million layer to cap the pool exposure. Despite increased pool funding, net position decreased from \$10.6 million in fiscal 2014 to \$3.9 million, due to continued adverse loss development. The 2015/16 year was funded at the 82.5% confidence level with an expected increase in net position of \$9.6 million.

In November 2015, the EIA entered into a contract with Munich Re, an excess carrier, on the EWC program to take back the claim liabilities that had been insured with Munich Re for the July 1997 through June 2004 years. Munich Re paid the EIA \$84,289,322 to assume undiscounted liabilities of \$82,103,422. As these liabilities will be paid over a long period of time, we present them discounted. The following table shows the amount at various discounted rates (what we expect to earn), and confidence levels. On the fiscal 2015/16 financial statements, the difference between the cash received for these liabilities and the discounted amount shown on the Statement of Net Position will increase Net Position overall, and in the EWC Program.

	Expected	70% CL	75% CL	80% CL	85% CL	90% CL
Undisc.	82,103,422					
Disc @ 1%	60,614,000	73,190,000	79,481,000	85,770,000	95,203,000	107,780,000

PRIMARY GENERAL LIABILITY

The Primary General Liability (PGL) Program provides General Liability I (GLI) Program members the opportunity to convert their \$100 thousand GLI self-insured retention to a \$10 thousand deductible. The Program provides members with claims administration services, which is accomplished through two third-party administrators. Under the Program's current structure, 100% of the pool's exposure (\$90 thousand excess of \$10 thousand deductibles) is reinsured with the commercial market. From 2009 to 2013, the coverage was with ACE Insurance Company. On July 1, 2013, coverage was switched to Berkley Insurance Company.

The Program had built up a healthy fund balance from prior years' operations. Since 2012, dividends of \$2,657,055 have been declared, and administration fees have been reduced.

GENERAL LIABILITY I

The General Liability I (GLI) Program provides members with coverage for third party liabilities (including general, automobile, employment practices and errors and omissions), up to a limit of \$25 million, subject to each member's self-insured retention, which can range from \$100 thousand to \$1 million (retentions as low as \$25 thousand can be provided on an exception basis). Because members maintain self-insured retentions in this Program, they are able to manage their own claims, either through a third party of their choice or with their own claims staff. The Program funds a \$5 million pool and purchases \$20 million in reinsurance to achieve the \$25 million limit.

GENERAL LIABILITY II

The General Liability II (GLII) Program provides members with coverage for third party liabilities (general, automobile, employment practices and errors and omissions), up to a limit of \$25 million, subject to the member's self-insured retention, which range from \$1 million to \$3 million. The GLII Program was specifically designed with the objective of offering larger members the advantages of the joint purchase of excess coverage, while maintaining their ability to handle and fund their primary losses. Because members maintain self-insured retentions in this Program, they are able to manage their own claims. Each member of the Program has a representative on the GLII Committee, which was established to administer and govern the Program. Because of prior large losses in multiple policy years, there is a pooled corridor deductible in the 2014/15 policy year, which was increased for the 2015/16 year.

PROPERTY

The Property Program provides coverage for physical damage to members' real and personal property as a result of "all risk" perils, including flood with overall per occurrence limits up to \$600 million. Members also have the opportunity to purchase additional earthquake coverage. The unique structure of the Program into Towers spreads risk both geographically and categorically. This spread of risk allows the Program to access higher limits at reduced costs. The Program renews on March 31st of each year. In order to provide and promote stability, the primary \$25 million in limits is written on a three-year basis. The pool exposure is protected by aggregate stop loss coverage at \$10 million. Beginning in the 2014/15 program year there was a catastrophic flood pool exposure of \$5 million, which has been partially funded with \$1 million collected in both the 14/15 and 15/16 policy years. Because the Program is fully insured over the aggregate pool limits, the primary reinsurer, Lexington, takes full responsibility for the adjustment of claims.

MEDICAL MALPRACTICE

The Medical Malpractice Program provides members with coverage for medical professional services and limited general liability exposures at established healthcare facilities. The program offers limits of \$21.5 million, in addition to each member's deductible or self-insured retention, which range from \$5 thousand to \$1.1 million. For members who maintain a \$5 thousand or \$10 thousand deductible, claims administration is provided by the program's third party administrator, Risk Management Services. Members who maintain a self-insured retention above those deductible limits are able to manage their own claims. The program funds a \$1.5 million pool on a claims-made basis and purchases \$20 million of reinsurance on an occurrence basis.

MASTER ROLLING OWNER CONTROLLED INSURANCE PROGRAM

On January 1, 2013, the EIA developed a new program. The Master Rolling Owner Controlled Insurance Program (MR OCIP) enables members to purchase workers' compensation and general liability coverage for all eligible parties (owner, general contractor, and sub-contractors) working on their construction projects. These policies, (also known as "wrap-ups"), are widely used on public sector construction projects and capital improvement programs. The MR OCIP can include projects as small as \$10 million, thereby enabling members to receive the benefits of a "wrap-up" on projects that otherwise wouldn't qualify because of their size.

EIAHEALTH

The EIAHealth Program, in partnership with Self Insured Schools of California (SISC), provides members with an alternative to group health insurance plans using the concept of pooling to reduce insurance premiums through consolidating the fixed costs over a larger population. Members are able to create and maintain their own plan designs within the context of the pooling arrangement that provides much greater stability than a standalone program. In addition, small group programs are available with predefined benefit options for public employers with less than 250 employees. HMO options are also available to members on an insured basis.

DENTAL

The Dental Program is a pooled program with predictable and stable dental rates year-over-year. The Program partners with Delta Dental to provide administrative services and access to the Delta Dental network of providers. The administrative fees in the Program are some of the lowest offered by Delta Dental of California. The Program has both January 1st and July 1st renewal dates.

AWARDS & ACKNOWLEDGMENT

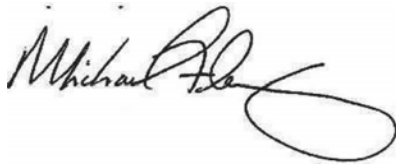

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to CSAC Excess Insurance Authority for its comprehensive annual financial report for the fiscal year ended June 30, 2014. This was the twenty-first consecutive year that the Authority has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

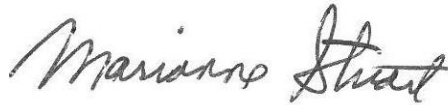

The Authority is a member of the California Association of Joint Powers Authorities (CAJPA). CAJPA sponsors the nation's first risk management accreditation program. This program establishes a model of professional standards, which serves as a guideline for all risk management pools regardless of size, scope of operation or membership structure. The accreditation process entails a detailed examination of legal and operational documents, risk management, loss control and claims programs, and statutory compliance by an independent examiner. The Authority has received CAJPA's "Accreditation with Excellence," the highest form of accreditation, for a three-year period ending in March, 2016.

The preparation of this report would not have been possible without the best efforts of the finance and administrative departments and we thank them for their contribution. Our sincere appreciation is expressed to the members of the Authority's Finance Committee and Executive Committee for their support in maintaining the highest standards of professionalism in the management of the Authority's finances, and to each Board of Director Member and Alternate, and all committee members, for their commitment to the Authority.

Respectfully Submitted,

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

**Board of Directors and Members
CSAC Excess Insurance Authority
Folsom, California**

Report on the Financial Statements

We have audited the accompanying financial statements of CSAC Excess Insurance Authority (the Authority) as of June 30, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, the State Controller's *Minimum Audit Requirements for California Special Districts*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of June 30, 2015 and 2014, and the changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America, as well as accounting systems prescribed by the State Controller's Office and state regulations governing special districts.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, in 2015 the Authority adopted new accounting guidance, *GASB Statement No. 68, Accounting and Financial Reporting for Pensions* – an amendment of GASB Statement No. 27 and *GASB Statement 71, Pension Transition for Contributions Made Subsequent to the Measurement Date* – an amendment of GASB Statement No. 68. The Authority has not restated the actual and pro forma effect of GASB 68 on the financial statements as of and for the year ended June 30, 2014. This data is not readily available due to an actuary study not being prepared in accordance with GASB 68 for measurement dates prior to June 30, 2014. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The supplemental information section, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplemental information section is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information section is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory Section and the Statistical Section, as listed in the table of contents, are presented for the purposes of additional analysis and are not a required part of the basic financial statements. They have not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we express no opinion on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2015, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Management's Discussion & Analysis

As management of the CSAC Excess Insurance Authority (EIA), we offer readers of the EIA's financial statements this narrative overview and analysis of the financial activities of the EIA for the fiscal years ended June 30, 2015 and 2014. All references to years are to the fiscal year ending at June 30.

Overview of the Financial Statements

The EIA reports as a government enterprise fund because its activities, the development and operation of public entity risk pools (Retained Risk), and group purchase of insurance (Transferred Risk), are paid for by its member users.

The EIA's basic financial statements are comprised of three components: 1) Authority-wide financial statements; 2) notes to the financial statements; and 3) fund financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

The *Authority-wide financial statements* are designed to provide readers with a broad overview of the EIA's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the EIA's assets, deferred outflows of resources, liabilities and deferred inflows of resources. Assets plus deferred outflows of resources minus liabilities and deferred inflows of resources is reported as net position. Net position includes the amount invested in capital assets, net of related debt.

The *Statement of Revenues, Expenses and Changes in Net Position* present information showing total revenues and total expenses and how the EIA's net position changed during the most recent fiscal year. All revenues and expenses are recognized as soon as the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., claims incurred but not paid, unrealized market gains on investments, earned but unused vacation leave, and pension liability).

The Authority-wide financial statements can be found on pages 40 through 44 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements, and can be found beginning on page 45 of this report.

Fund financial statements. The EIA operates one enterprise, proprietary fund to account for its eleven risk management programs, general administration, and operation of the EIA's building. Each program has established its own set of accounts so that each program can be independently evaluated.

Management's Discussion & Analysis

The following table shows the net position in each fund:

Primary Workers' Compensation	\$	25,888,450
Excess Workers' Compensation		3,863,964
Primary General Liability		1,563,118
General Liability I		39,109,813
General Liability II		551,349
Property		5,916,979
Medical Malpractice		6,004,879
Master Rolling Owner Controlled Ins. Program		51,009
EIAHealth		1,810,481
Dental Program		16,697,383
Miscellaneous Programs		1,845,569
Administration and Building		9,103,651
Total Net Position	\$	112,406,645

Financial Highlights

Authority-Wide Financial Analysis

The EIA's assets exceeded liabilities by \$112.4 million as of June 30, 2015, and by \$113.3 million at June 30, 2014, and \$118.6 at June 30, 2013. Below is a condensed Statement of Net Position:

CSAC Excess Insurance Authority's Combined Statement of Net Position

	June 30, 2015	June 30, 2014	June 30, 2013
Current Assets	\$ 207,777,344	\$ 309,440,001	\$ 326,533,622
Noncurrent Assets	434,584,578	283,144,274	261,618,903
Total Assets	642,361,922	592,584,275	588,152,525
Deferred Outflows	587,253	-	-
Current Liabilities	148,795,667	124,485,596	117,831,208
Noncurrent Liabilities	380,901,782	354,769,678	351,705,921
Total Liabilities	529,697,449	479,255,274	469,537,129
Deferred Inflows	845,081	-	-
Invested in Capital Assets	9,043,933	8,414,447	8,677,508
Unrestricted Net Position	103,362,712	104,914,554	109,937,888
Total Net Position	\$ 112,406,645	\$ 113,329,001	\$ 118,615,396

Net Position

Net Position decreased \$900 thousand in 2015 compared to a decrease of \$5.3 million in 2014. We started the year with net position of \$113.3 million. We had net income of \$1.5 million. However, we adopted a new Government Accounting Standard for our pension reporting resulting in a decrease in net position of \$2.4 million. Our ending balance in net position is \$112.4 million.

Management's Discussion & Analysis

Our net position balances over the past five years is illustrated as follows:

Our large, pooled risk programs, Workers' Compensation and Liability programs, account for 73% of net position as show below:

Management's Discussion & Analysis

Approximately 98% of our assets consist of funds held for the payment of claims. Of these funds, 15% is in cash, and 85% is invested. The following chart shows the asset allocation for the invested funds at June 30, 2015:

Market interest rates continued at historically low levels during fiscal year 2015. During fiscal year 2015, there was a net decline in fair value recognized of \$1.6 million, compared to a net decline in fair value in fiscal year 2014 of \$2.3 million. A \$9.3 million decline in fair value was recognized in fiscal year 2013. The declines in fair market value are primarily being driven by fluctuations in the market interest rate. The potential direction of interest rates, up or down, and the interest earned are both considered at the time the investment is made.

Liabilities

As another year is added on to our Excess Workers Compensation program, which has a long payout pattern, claim liabilities will naturally increase. We have also experienced adverse loss development in recent years. In addition, the EWC program grew significantly adding the California State University Risk Management Authority. In fiscal 2015 over all programs claim liabilities increased \$24 million compared to an increase of \$12 million in 2014, and a decrease of \$5.6 million in 2013.

Our claim liabilities are discounted, meaning they are stated at the present value of the future stream of claim payments. The discount rate is based on what the EIA expects to earn on the funds set aside to pay claims. The rate of return on invested funds has been less than anticipated since the recent recession started in 2008. In fiscal year 2011, the EIA made significant adjustments to the discount rates. In 2012, and again in 2013, the

Management's Discussion & Analysis

EIA adjusted our discount rates lower to reflect the continued low interest rate environment. The claim liability trend over the past five years is as follows:

Pension Liability

In Fiscal 2015 the Authority implemented Government Accounting Standards Board Statement No. 68 which changes the way governments report their pension expense and accrued liability. No longer will they report on a pay as you go method, but will instead report the difference between funds set aside to pay pensions and their net accrued pension liability on their statement of net position. This is considered a “Change in Accounting Principle” and the cumulative effect of the change coming into the year is shown on the Statement of Net Position as an adjustment to Net Position.

The Authority had estimated what the amount might be at between \$2 and \$3 million based on prior actuarial statements. The adjustment came in at \$2.5 million. The Authority has taken action and budgeted to pay \$1.8 million of their liability in fiscal year 2015/16. A full explanation of how this accounting principle applies for pensions is explained in footnote 1 C. on page 47, and a description of the pension expense and changes therein is explained in footnote 7 beginning on page 70 and in the Required Supplementary Information.

Management's Discussion & Analysis

Target Equity

Each of the pooled programs establish Target Funding Guidelines, which determine the range of net position to retain in the program in order to provide for the uncertainty of actuarial estimates, inconsistent or inaccurate reserving, and the possibility of catastrophic claims. The purpose of the guidelines is to assist members in making funding decisions. A range is determined by looking at various ratios; for instance Gross Premium to Equity, Equity to Pool retention, Outstanding Case Reserves to Equity, and Outstanding Ultimate Reserves to Equity. The table below shows the Target Equity Range for the pooled programs and program net position:

Program	Target Equity Range		Program Net Position	
	In millions			
	Low	High	At June 30, 2015	
Primary Workers' Compensation	\$ 14	\$ 44	\$	26
Excess Workers' Compensation	\$ 30	\$ 67	\$	4
Primary General Liability	\$ 0.07	\$ 2	\$	2
General Liability I	\$ 16	\$ 35	\$	39
Medical Malpractice	\$ 5	\$ 10	\$	6

As the above chart shows, all programs, with the exception of the Excess Workers' Compensation Program, are in, or exceed, their Target Equity Range.

The Excess Workers' Compensation Program net position is well below their Target Equity Range. First, the ultimate cost of claims (claim liabilities) for the older years continues to increase, which decreases equity. Another factor driving the equity down has been the extremely low returns on invested assets, creating an investment gap between what we expected to earn on funds invested, and what we did earn. See footnote 4, page 58, for additional information on the discount rate. The Board has taken steps to increase the program's equity including, raising the confidence level (what we collect) used to calculate pool premium, and transferring risk or insuring the layer between the member's self-insured retention up to \$1 million, which we did from 2008/09 to 2010/11. In the 2011/12 policy year, we reinsured the \$1 million to \$5 million layer, subject to \$3.5 million corridor retention. During the past three fiscal years, 2012/13 through 2014/15 and the current renewal, the program's liability in the pooled excess of SIR up to \$5 million layer was capped, therefore eliminating the risk of adverse loss development. The layers above \$5 million are fully insured. The Board will continue to address the program's Target Equity. See footnote 10 on page 78 for the disclosure of the commutation on some of the years subsequent to the end of the fiscal year.

Management's Discussion & Analysis

The following is a condensed Statement of Revenues, Expenses and Changes in Net Position.

CSAC Excess Insurance Authority's Statement of Revenues, Expenses and Changes in Net Position

	June 30, 2015	June 30, 2014	June 30, 2013
Operating Revenues:

Changes in Net Position	1,539,031	(5,286,395)	13,063,576
Cumulative Effect of Change in Accounting Principle Pensions	(2,461,387)		
Net Position			
Beginning Balance, July 1	113,329,001	118,615,396	105,551,820
Ending Balance, June 30	\$ 112,406,645	\$ 113,329,001	\$ 118,615,396

Revenues

Total operating revenues were \$614.7 million during 2015, a 7% increase from the \$573.6 million in 2014. The total revenue allocation is shown in the following chart:

Membership. There was some movement in membership in most of our programs. Our employee benefits programs continue to add new members and our new Master Rolling Owner Controlled Insurance Program (Wrap-up program for major construction contracts) added smaller, under \$100 million in construction value to our pooled program. In addition to cities, counties, and special districts we insure directly, we cover an additional 1,583 members, up from 1,489 in 2014, who are part of other Joint Powers Authorities that participate in our programs.

Premiums for Transferred Risk. Premiums for transferred risk increased 5% from \$423 million in 2014 to \$443 million in 2015. The insurance premium revenues and expenses are dependent on the cyclical insurance market. The last two years have been challenging due to market hardening in Workers' Compensation and adverse loss development in both our Workers' Compensation and Liability Programs. Our exposure base for Workers' Compensation and General Liability programs is payroll; with the economic recovery, payrolls are growing.

Contributions for Retained Risk. The EIA's contributions for retained risk revenues were \$143 million in 2015, compared to \$124 million last year, an increase of \$19 million. The contributions for retained risk, together with investment earnings, are used to finance the provision for claims.

Expenses

Total operating expenses increased \$34.3 million in fiscal year 2015 compared to \$585 million in fiscal year 2014, largely driven by insurance expense. Claims expense also

Management's Discussion & Analysis

increased, up \$13.1 million as another year and a large new member were added to the EWC program.

Operating expense compared to revenue is shown in the following chart:

Significant expense items included:

- Member dividends included another \$4 million dividend to members of the Primary Workers' Compensation (PWC) Program, \$450 thousand to Primary General Liability (PGL) Program members and \$255 thousand in no claim bonus payments.
- Insurance expense increased by \$21.5 million, mirroring the revenue increase in premiums for transferred risk.
- The provision for claims is a management estimate of the cost of pooled, or shared, claims. This estimate is based on a variety of actuarial and statistical techniques considering claims history, claim payment history and frequency, changes in the law, inflation, and other socio-economic factors. Because our claims are discounted to the present value, the effect of changes in the discount rate is included in the provision for claims. The overall provision for claims cost, both prior and current, increased \$13 million from \$122.2 million in 2014 to \$135.2 million in 2015.
- Program service expenses were down slightly in 2015. Program services include claims administration services, claims audits, actuarial services, legal services, and other expenses necessary for the operation of each program.
- Membership in many EIA programs includes subsidies to enhance member's risk management programs.

Management's Discussion & Analysis

The actuarial subsidy is \$2,000, available in many programs. All members of the property and casualty programs are eligible for a risk management subsidy of \$1,000 per program. A total of \$1.2 million of net position is available to members to use for risk management purposes.

The following chart shows the total dollars that were added to member subsidies for the last five years:

The EIA offers a variety of risk management and loss prevention services for our members. The services offered include:

- Direct consultation on loss prevention/risk management, safety and industrial hygiene issues
- Library of video and printed resource materials
- Regional, on-site, on-demand and web based training programs
- Facility & property inspections
- Hazard and exposure assessments with realistic solutions
- Drug and Alcohol Testing Consortium
- Policy/program evaluation and development
- Credential & events management system
- Loss & risk analysis services
- Liability & Employment Law Legal Hotlines
- Resource center
- Electronic Pull Notice program (EPN)

Capital Assets

In January 2010, the new office facility at 75 Iron Point Circle, Folsom, California was purchased at a cost of \$9.2 million. We have invested in tenant improvements, both for the space occupied by the authority and for the 50% of the building that is leased out. Other investments include scheduled replacements of office equipment and computers, and investments in new technology. We are in the third year of implementing a new claims system. The system is expected to cost about \$2 million when fully phased in. This claims system not only replaces our current legacy system, but adds capability to bring in-house our outsourced TPA systems for the PWC Program. We also provide a claims platform for members who want to lease our system. Please refer to footnote 5 (Capital Assets), for more detailed information.

Economic Factors

The most significant economic factors that will affect the future of the EIA include the legislation that affects changes in coverage, the insurance market, the investment market, and the financial health of our members. California entities are beginning to recover from the recent great recession with increases in sales and property tax revenues, and employment. Our members are also increasing their payrolls. The property market has sufficient capacity for our earthquake and flood risks. There are fewer markets for our workers' compensation and liability programs, but we are still able to insure risks at a competitive cost. Each EIA program committee is carefully monitoring changes to the insurance market, investment market, and their target equity as they make funding decisions at renewal.

Other Information

In addition to the basic financial statements and accompanying notes to the financial statements, this report also presents certain *Required Supplementary Information* reconciling EIA claim liabilities and claim development schedules. Required supplementary information can be found beginning on page 79 of this report. The combining and individual program statements for all EIA programs are presented immediately following the required supplementary information beginning on page 94 of this report.

Conclusion

This financial report is designed to provide a general overview of The EIA's finances for all those with an interest in the EIA's finances. Questions concerning any of the information should be addressed to the Chief Financial Officer, 75 Iron Point Circle, Suite 200, Folsom, California 95630.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

1. Organization and Significant Accounting Policies

The accounting policies of the CSAC Excess Insurance Authority (the EIA or the Authority) conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant policies.

A. Organization and Reporting Entity

The Authority is a Joint Powers Authority (JPA) organized in accordance with Article 1, Chapter 5, Division 7, Title I of the California Government Code. The purpose of the entity is to develop and fund insurance programs for member counties and other public entities. The Authority operates public entity risk pools for workers' compensation, employee benefits, comprehensive liability, property, medical malpractice, and pool purchases of excess insurance and services for members.

The Authority is under the control and direction of the Board of Directors (the Board), consisting of representatives of the member counties and other public entities. For purposes of control and daily management, the Authority annually elects an Executive Committee, which consists of a President, Vice President, and nine Directors. The immediate Past President and legal advisor are non-voting (advisory) members of the Executive Committee. The Executive Committee has appointed a Chief Executive Officer.

B. Membership

There are two classes of membership; county members and public entity members. Each member has adopted the Joint Powers Agreement and has been approved by the Board of Directors.

County membership is available to California counties whose supervisors are members of the California State Association of Counties (CSAC). Currently, there are 55 member counties. Each county member is entitled to appoint one representative to the Board. County members have nine positions on the Executive Committee.

Public entity membership is open to any other California public entity. Public entity members have seven voting seats (and three alternates) on the Board of Directors. Two seats on the Executive Committee are designated for public entity members.

The following number of members participated in Authority programs, as of June 30, 2015 and 2014:

	2015	2014
Primary Workers' Compensation	38	39
Excess Workers' Compensation	166	166
Primary General Liability	23	23
General Liability I	104	104
General Liability II	11	11
Property	85	84
Medical Malpractice	49	49
Master Rolling Owner Controlled Insurance	3	2
EIAHealth	25	25
Dental	142	133

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

1. Organization and Significant Accounting Policies (continued)

B. Membership (continued)

Members are assessed a contribution for each program in which they participate. Members may be subject to additional supplemental assessments, if it is determined that contributions are insufficient. The pool considers anticipated investment income in determining if a premium deficiency exists.

If a program has sufficient net position available, a dividend may be declared. Each member shall be eligible for a portion of the dividend, as determined by the Board or governing committee.

Members may withdraw from the Authority only at the end of a policy period and only if a 60 day written notice is given. The Authority may cancel a membership at any time, upon two-thirds vote of the Board and with 60 days written notice. Upon withdrawal or cancellation, a member shall remain liable for additional assessments for the program periods in which they have participated. Withdrawn or cancelled members are generally not eligible for future dividends, based on the conditions set forth in the Joint Powers Agreement.

C. Significant Accounting Policies

Basis of Presentation and Accounting

The accounts of the Authority are organized on the basis of governmental fund accounting. The Authority operates a single enterprise fund, which is considered a separate accounting entity. An enterprise fund is used to account for governmental activities where the intent is that the cost of providing goods or services is financed primarily through user charges. The Authority's operations consist of ten insurance programs, a general administration program and a building program for the office facility it owns. Each program has established its own chart of accounts for its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, and expenses.

The financial statements of the Authority have been prepared in accordance with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. As a governmental entity, the Authority follows the accounting standard hierarchy established by the GASB. Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied. The accounting records are maintained using the economic resources measurement focus and the accrual basis of accounting. Net operating income includes the cost of providing risk financing and related services, and the expenses related to providing those services. Net nonoperating income includes investment income, rental income, and the related expenses. Major revenue accrual entries include member premium receivable and investment income receivable in the EIA Treasury. Expenses are recognized when goods or services are received, or in the case of claims, when the insured event occurs. Expense accrual entries include liabilities for reported claims and liabilities for claims incurred but not reported.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

1. Organization and Significant Accounting Policies (continued)

C. Significant Accounting Policies (continued)

For the year ended June 30, 2015, the Authority implemented GASB Statement No. 68 (GASB 68), *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, and GASB Statement No. 71 (GASB 71) *Pensions Transition for Contributions Made Subsequent to the Measurement Date – an Amendment of GASB Statement No. 68*, with required implementation for the Authority during the year ended June 30, 2015. The primary objectives of GASB 68 and GASB 71 are to improve accounting and financial reporting by state and local governments for pensions by establishing standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses/expenditures. They require employers to report a net pension liability for the difference between the present value of projected pension benefits for past service and restricted resources held in trust for the payment of benefits. The Statements identify the methods and assumptions that should be used to project the benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note 7 explains the effect of the current year GASB implementation.

Since GASB 68 requires retroactive application, the net pension liability offset by the related deferred outflow of resources as of June 30, 2014 reduces the beginning net position as of June 30, 2015. As a result, for the year ended June 30, 2015, the beginning net position decreased by \$2,461,387 as the cumulative effect of change in accounting principles. CalPERS did not prepare an actuary study for measurement dates prior to June 30, 2014; therefore, the Authority has not restated the actual and pro forma effect of GASB 68 on the financial statements as of and for the year ended June 30, 2014.

Reclassifications

Certain reclassifications have been made to prior year balances to conform to classifications used in the current year.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Authority considers cash in banks and deposits in the State of California Local Agency Investment Fund to be cash equivalents.

Investments

Investments are recorded in the EIA Treasury (Note 3) at fair value. Investment income is recorded as earned.

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Interest on investments is recorded in the year the interest is earned, and is considered 100% collectible. The June 30, 2015 and June 30, 2014 balances in the other receivable accounts are considered 100% collectible.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

1. Organization and Significant Accounting Policies (continued)

C. Significant Accounting Policies (continued)

Prepaid Expenses

Payments for insurance and other services that extend to future accounting periods have been recorded as prepaid expenses.

Capital Assets

Capital assets include furniture, equipment, software, tenant improvements, building and amortizable lease acquisition costs with an individual cost of \$5,000 or more. Capital assets are recorded at cost. Expenses for maintenance and repairs are reflected in current earnings as incurred. Upon sale or retirement of an asset, its cost and related accumulated depreciation are removed from the account balances and charged to current earnings.

Depreciation for office furniture, equipment, and software is computed using the straight-line method and an estimated useful life of three to seven years. Depreciation for the office building and tenant improvements is computed using the straight-line method, either over the lease term or the useful life of the component units, as appropriate, with the period ranging from three to sixty years.

Unearned Income

Unearned income includes payments from members for insurance premium or contributions for retained risk received, but not earned until a subsequent accounting period.

Unallocated Loss Adjustment Expenses Payable

Unallocated loss adjustment expenses (ULAE), include costs that cannot be specifically associated with particular claims, but are related to claims paid or the process of claim settlement and claims administration services.

A provision for unallocated loss adjustment expenses has been recognized based on an identification of future unallocated expenses, then determining the relationship between these costs and claim liabilities.

	June 30, 2015	June 30, 2014
Primary Workers' Compensation	\$ 27,902,817	\$ 25,697,819
Excess Workers' Compensation	10,600,812	10,005,560
Primary General Liability	116,323	103,718
General Liability I	1,543,491	2,313,958
General Liability II	491,390	494,024
Property	127,240	103,639
Medical Malpractice	1,703,038	1,647,180
Totals	<u>\$ 42,485,111</u>	<u>\$ 40,365,898</u>

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

1. Organization and Significant Accounting Policies (continued)

C. Significant Accounting Policies (continued)

Compensated Absences

The Authority's vacation policy provides for a limited accumulation of earned vacation leave, with such leave being fully vested when earned. A liability of \$343,892 for vacation pay has been computed and recorded, based on the unused days multiplied by the current daily rates of pay.

At June 30, 2015, the current portion of the liability is \$68,778 and the balance of \$275,114 is considered long- term.

	Fiscal Year Ended	
	June 30, 2015	June 30, 2014
Beginning Balance	\$ 318,848	\$ 293,812
Increases	316,095	274,000
Decreases	(291,051)	(248,964)
Ending Balance	<u>\$ 343,892</u>	<u>\$ 318,848</u>
Current Portion	<u>\$ 68,778</u>	<u>\$ 63,770</u>
Long Term Portion	<u>\$ 275,114</u>	<u>\$ 255,078</u>

The Authority's sick leave policy provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave, accumulated at the time of retirement, may be used in the determination of length of service for retirement benefit purposes. Since the Authority has no obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

Deferred Outflows/Deferred Inflows of Resources

In addition to assets and liabilities, the statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of resources that applies to a future period(s) and will not be recognized as an outflow of resources (expense) until then. Conversely, deferred inflows of resources represent an acquisition of resources that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

Contributions made to the Authority's pension plan(s) after the measurement date but before the fiscal year end are recorded as a deferred outflow of resources and will reduce the net pension liability in the next fiscal year.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Authority's portion of the CalPERS Miscellaneous plan and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

1. Organization and Significant Accounting Policies (continued)

C. Significant Accounting Policies (continued)

Classification of Revenues

The Authority has classified its revenue as either operating or non-operating revenues. Certain significant revenue streams relied upon for operations are recorded as non-operating revenues, as defined by GASB Statement 34 including investment income. Revenues and expenses are classified according to the following criteria:

- Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as insurance premiums, assessments for insured events, administration fees, and public entity fees.
- Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of non-exchange transactions and other revenue sources described in GASB Statement 34, such as investment income and finance charges.

Premiums for Transferred Risk and Contributions for Retained Risk

EIA programs blend the purchase of insurance with risk sharing pools. Premiums for transferred risk are resources collected to purchase commercial insurance. Contributions for retained risk are collected to fund our risk sharing pools and share in the cost of claims. Both premiums for transferred risk and contributions for retained risk are collected in advance and recognized as revenues in the period for which insurance protection is provided. If the Board determines that the insurance funds for a program are insufficient to pay losses, fund known estimated losses and fund estimated losses, which have been incurred but not reported, the Authority may impose a supplemental assessment on all participating members. Supplemental assessments are recognized as income in the period assessed. Workers' compensation program contributions are based on estimated payrolls and are adjusted in the subsequent fiscal year, based on actual payroll data.

Provision for Claims

The Authority's programs include both arrangements in which the members combine resources to purchase commercial insurance products and risk sharing pools, where members pool risks and funds and share in the cost of losses. Some programs include elements of both; losses up to a certain amount are pooled, and the Authority purchases excess or reinsurance for losses not covered in the pooled layer. The provision for claims expense represents the pools' expense for claim costs.

Excess Insurance and Reinsurance

The Authority uses excess insurance and reinsurance agreements to reduce its exposure to large losses on all types of insured events. Excess insurance covers claims in excess of each pool's retention layer. Reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the Authority as direct insurer of the risk reinsured. The Authority does not report reinsured risk as a liability, unless it is probable that those risks will not be recovered from reinsurance. The amount of settlements did not exceed insurance coverage in each of the past three years.

CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014

1. Organization and Significant Accounting Policies (continued)

C. Significant Accounting Policies (continued)

Services

Services donated by many officers, directors, and committee members are important to the activities of the Authority. The financial statements do not recognize the value of these donated services, since there is no basis for measuring and valuing these services.

Income Taxes

The Authority is a government entity exempt under Internal Revenue Code Section 115, and is not liable for federal or state income taxes. The Authority is liable for certain payroll taxes.

Management Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the reporting date, and revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term are described elsewhere in this report.

Net Position

Net Position represents the net investment in capital assets of \$9,043,933, net of accumulated depreciation, and unrestricted net position of \$103,362,712 as of June 30, 2015, for a total of \$112,406,645. The net position as of June 30, 2014, was \$113,329,001. The unrestricted net position balances are available for future operations or distribution.

2. Cash

A. Cash and Cash Equivalents

The Authority maintains a petty cash account of \$300.

Cash and cash equivalents, as of June 30, 2015 and 2014 are reported at fair value and consist of the following:

	June 30, 2015	June 30, 2014
Petty Cash	\$ 300	\$ 300
Cash in Banks		
Primary Workers' Compensation Checking	6,631,920	5,719,662
Primary General Liability Checking	626,182	445,902
Iron Point Checking	85,968	127,773
	<u>7,344,370</u>	<u>6,293,637</u>
Cash in EIA Treasury		
Cash in Bank, General Checking	8,545,598	5,278,437
Treasury Money Market	2,408,206	47,732,264
State of California,		
Local Agency Investment Fund	10,991,342	10,501,316
Total Cash in EIA Treasury	<u>21,945,146</u>	<u>63,512,017</u>
Total Cash and Cash Equivalents	<u>\$ 29,289,516</u>	<u>\$ 69,805,654</u>

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

2. Cash (continued)

B. Custodial Credit Risk

The carrying amount of the Authority's total cash in banks was \$15,889,668 at June 30, 2015, and \$11,571,774 at June 30, 2014. The bank balance was \$21,492,606 at June 30, 2015 and \$17,892,222 at June 30, 2014, and was partially insured by the Federal Deposit Insurance Corporation (FDIC). As of June 30, 2015, \$20,992,605 is in excess of FDIC insured amounts. California law requires depository banks to hold collateral equal to 110% of government funds on deposit. Our investment policy does not address custodial credit risk.

C. Authority Treasury

The Authority pools cash resources of its various programs in order to facilitate the management of cash. Cash available to a particular program is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities, as part of the Authority's investments.

Authority treasury accounts were comprised of the following:

	June 30, 2015	June 30, 2014

3. Investments

The Authority's investment policy is designed to achieve an optimum rate of return on available assets not required for current operating needs. Section 53601 of the California Government Code provides the legal authority for investments. An appropriate level of risk shall be maintained by purchasing securities that are liquid, marketable, and high quality. Adequate diversification shall be applied to prevent an undue amount of investment risk with any one institution. The classes of investment that most adequately meet the above mentioned criteria shall be allowed for purchase. They are issues of the United States Government, federal agencies (GNMA, FNMA, FHLB, FFCB, and FHLMC), local government investment pools, municipal bonds including those issued by the State of California, bankers' acceptances, commercial paper, asset-backed and mortgage-backed securities, supranational, money market mutual funds and medium-term corporate notes. While not as liquid or marketable as prior mentioned securities, repurchase agreements and time certificates of deposit are also allowable investments. The Authority may also deposit investment funds with the State of California Local Agency Investment Fund.

The Authority's investment policy places limits on the purchase of various categories of investments as follows:

Category	Standard
Treasury Issues	No limitations
U.S. Agencies	25% max issuer
U.S. Corporate (MTNs)	"A" or higher by at least 1 NRSRO; 30% maximum; 5% max issuer; Issuer is a corporation organized and operating within the U.S. or by depository institutions licensed by U.S.
Municipal Securities	"A" or higher by at least 1 NRSRO; 30% maximum; 10% maximum for CA State issued munis; 5% max issuer for all others
Banker's Acceptances	"A-1" or higher short term rating by at least 1 NRSRO; "A" or higher long term rating by at least 1 NRSRO; 40% maximum; 5% max issuer; 180 days max maturity
Certificate of Deposit (CDs)/ Time Deposit (TDs)	20% maximum; 5% max issuer; FDIC insured; Fully collateralized
Negotiable CDs	"A-1" or higher short term rating by at least 1 NRSRO; "A" or higher long term rating by at least 1 NRSRO; 30% maximum; 5% max issuer
Commercial Paper	"A-1" or higher by at least 1 NRSRO; "A" or higher by at least 1 NRSRO, if long term debt issued; 25% maximum; 5% max issuer; 270 days max maturity
Asset Backed/ Mortgage Backed/ CMOs	"AA" or higher rating by a NRSRO; "A" or higher issuer rating by a NRSRO, if long term debt issued; 20% maximum; 5% max issuer
Money Market Fund	Highest rating by 2 NRSROs; 20% maximum; 10% per fund
Supranationals	"AA" or higher by a NRSRO; 30% maximum; 10% max issuer; Includes: IBRD, IFC, and IADB
Repurchase Agreements	102% colateralization; Not used by investment adviser
LAIF	Authority may invest up to the maximum permitted by LAIF; Not used by IA
Max Callable Securities	30% of the portfolio (does not include make whole securities)
Max Per Issuer	5% of portfolio (except U.S. government, Agencies/ GSEs, Money Market Fund, LGIP)
Maximum Maturity	5 years maximum maturity

3. Investments (continued)

A. Investment Credit Risk

The Authority's investments at June 30, 2015 and 2014 are summarized below. The credit quality rating used is Standard and Poor's, a nationally recognized rating agency.

Investments	Credit Quality Rating	June 30, 2015		June 30, 2014	
		Fair Value	%	Fair Value	%
U.S. Treasury Notes	AA+	\$ 165,145,735	34%	\$ 96,849,223	25%
U.S. Agencies	AA+	\$ 115,166,682	24%	145,672,008	38%
Asset Backed Securities	AAA	\$ 18,508,049	4%	-	0%
Asset Backed Securities	NR*	\$ 1,861,352	0%	-	0%
Corporate Notes	AAA to A+	\$ 117,556,173	24%	101,663,025	27%
Corporate Notes	A	\$ 18,625,694	4%	35,907,205	9%
Calif. General Obligation Bonds	A+ to A	\$ 38,632,572	8%	5,036,050	1%
Commercial Paper	A-1+ to A-1	\$ 10,998,310	2%	-	0%
Total Investments		\$ 486,494,567	100%	\$ 385,127,511	100%

NR* - Not rated by Standard & Poor's. However, rated Aaa by Moody's.

B. Investment Interest Rate Risk

The Authority's investment policy limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Investments are generally limited to five years maturity, or less. Investments maturing over five years must be approved by the Authority's Finance Committee.

Maturities of investments held at June 30, 2015 consist of the following:

	<u>Investment Maturities</u>				Time to Maturity
	Fair Value	Less than 1 Year	One to Five Years		
U.S. Agencies	\$ 115,166,682	\$ 16,145,208	\$ 99,021,474		2.48
Asset Backed Securities	20,369,401	3,343,233	17,026,168		1.69
Corporate Mid Term Notes	136,181,867	47,211,030	88,970,837		2.17
Municipal Bonds	38,632,572	5,014,650	33,617,922		3.03

3. Investments (continued)

B. Investment Interest Rate Risk (continued)

The Authority recognizes all investments at fair value in accordance with GASB Statement 31. Fair value equals estimated market values obtained from the Interactive Data Corporation (IDC) pricing system, a leading provider of financial information to global markets. The calculation of realized gains and losses is independent of the calculation of the change in the fair value of investments. Realized gains and losses of the current period include unrealized amounts from prior periods. Investment income includes \$1,593,339 of unrealized loss for the year ended June 30, 2015. In the year ended June 30, 2014, \$2,328,850 of unrealized loss was recognized.

The calculation of unrealized losses is shown in the following tables:

	June 30, 2015	June 30, 2014
Fair Value at June 30,	\$ 486,494,567	\$ 385,127,511
Add: Proceeds of Investments Disposed Of	254,866,831	185,300,000
Less: Cost of Investments Purchased	(357,827,226)	(137,662,608)
Less Fair Value at July 1	(385,127,511)	(435,093,753)
Change in Fair Value	\$ (1,593,339)	\$ (2,328,850)

	Beginning Fair Value At July 1, 2014	Purchases	Dispositions	Subtotal	Ending Fair Value At June 30, 2015	Change in Fair Value
U.S. Agencies	\$ 145,672,008	\$ 65,625,510	\$ 96,097,179	\$ 115,200,339	\$ 115,166,682	\$ (33,658)

3. Investments (continued)

C. Concentration of Credit Risk

The Authority's investment policy places limits on the amount that may be invested in any one issuer. The limits are applied at the time the investment decision is made. These limits are summarized as follows:

	Limit per Institution	Limit per type of Investment
Treasury Notes and Bills	100%	100%
U.S. Agencies	25%	100%
Asset Backed Securities	5%	20%
Commercial Paper	5%	25%
Bankers' Acceptances	5%	40%
Corporate Mid Term Notes	5%	30%
Time Certificates of Deposit	5%	20%
Municipal Bonds	varies by state	30%
Repurchase Agreements	100%	100% (A)

(A) Repurchase Agreements must be collateralized with securities authorized by California Government Code, maintained at a level of at least 102% of the market value of the Repurchase Agreement. Maximum maturity may not exceed one year.

Investments with one institution that represent 5% or more of the total investment portfolio are listed below. Investments issued or explicitly guaranteed by the U.S. government and investments with the State of California's Local Agency Investment Fund (LAIF) have been excluded.

Issuer	Number of Securities	Fair Value	Percentage of Total Portfolio
Federal National Mortgage Assn	5	\$ 48,554,782	10.0%
State of California	4	\$ 38,632,572	7.9%
Federal Home Loan Mortgage Corp	3	\$ 28,476,982	5.9%
Federal Home Loan Bank	3	\$ 28,135,018	5.8%
Wells Fargo Company	3	\$ 25,396,630	5.2%

D. California's Local Agency Investment Fund (LAIF)

The Authority may also invest in the State of California's LAIF, administered by the State Treasurer. California law restricts the Treasurer to investments in the following categories: U.S. Government securities, securities of federally sponsored agencies, domestic corporate bonds, interest bearing time deposits in California banks and savings and loan associations, prime-rated commercial paper, repurchase and reverse repurchase agreements, security loans, bankers acceptances, negotiable certificates of deposit, supranational debentures, and loans to various bond funds. LAIF investments are audited annually by the Pooled Money Investment Board and the State Controller's Office. Copies of this audit may be obtained from the State Treasurer's Office, 915 Capitol Mall, Sacramento, California 95814.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

3. Investments (continued)

D. California's Local Agency Investment Fund (LAIF) (continued)

The Pooled Money Investment Board has established policies, goals, and objectives to make certain that their goal of safety, liquidity, and yield are not jeopardized and that prudent management prevails. LAIF has a continuing audit process throughout the year. The State Controller's Office, as well as an in-house audit process involving three separate divisions, audits all investments on a daily basis.

The total carrying cost of LAIF's pooled money investment account at June 30, 2015, is \$69,614,988,609. The fair value is estimated at \$69,641,162,418 or 1.000375979% of cost. The average maturity of LAIF investments is 239 days at June 30, 2015.

The Authority's balance in LAIF at June 30, 2015, was \$10,991,342 and is recognized at LAIF's cost. LAIF's cost approximates the fair value of the Authority's shares. The Authority's balance in LAIF at June 30, 2014, was \$10,501,316, and was also valued at LAIF's cost. LAIF is not rated by the investment rating firms.

4. Claim Liabilities

The Authority establishes claim liabilities based on estimates of the ultimate cost of claims (including claims adjustment expenses) that have been reported but not settled, and of claims that have been incurred but not reported. Because actual claim cost depends on such complex factors as inflation, changes in doctrines of legal liability and damage awards, the process used in computing claim liabilities does not necessarily result in an exact amount. Claim liabilities are recomputed periodically using a variety of actuarial and statistical techniques. Claim liability estimates reflect recent settlements, claims frequency, and other economic and social factors. A provision for inflation in the calculation of estimated future claims cost is implicit in the calculation because reliance is placed both on actual historic data that reflects past inflation, and on other factors that are considered to be approximate modifiers of past experience. Adjustments to claim liabilities are charged, or credited, to expense in the period in which they are made.

The Board elected to establish claim liabilities in some programs at a level which includes investment income on monies set aside to pay claims, that is, on a discounted basis. Total claim liabilities at June 30, 2015 of \$578,690,498, have been presented at the net present value of \$463,749,847. At June 30, 2014, claim liabilities of \$598,686,910 are presented at their present value of \$439,821,540, discounted based on the estimated investment income yield.

The Board establishes the discount rate and funding for the Excess Workers' Compensation Program and the General Liability I Program, and the program committees establish the discount rate and funding for the Primary Workers' Compensation, Primary General Liability, and Medical Malpractice Programs.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

4. Claim Liabilities (continued)

Annually, the Board and committees evaluate the discount rate to be used for pool funding and for the actuarial valuation of claim liabilities. This is of particular importance for the Excess Workers' Compensation Program, the General Liability I Program and the Medical Malpractice Programs, because claim liabilities are paid off over a longer period of time. Since 2008 our investments have been yielding less than the discount rate, and it appears investment yields will not recover to previous levels in the short-term. Because of the extremely low yield on our investments, we had our actuary conduct an analysis of the payout patterns on these claims and evaluate the sensitivity of the discount rate. Since June 30, 2011, we have lowered the discount rate in the pooled programs a number of times. The rates used in various programs vary because of the number of years it takes to pay out the claims entirely.

The Excess Workers' Compensation Program has an extremely long payout period due to the nature of the claims. This is an "excess" program, meaning coverage sits on top of a member's self-insured retention, which can vary from \$125 thousand up to \$5 million. Much of the liability arises as a result of a future medical award, or disability award, that extends for the life of the injured worker, who may collect benefits for over 30 years. The total funds available to pay those claims earn interest for years, and because of the size of the program, a change in the discount rate results in a change in the liability of millions. The following chart shows the sensitivity of claim liabilities to the discount rate selected and the resulting effect on net position.

Discount Effect on Claim Liabilities in the EWC Program				
Discount Rate Selected	3.75%	3.00%	2.00%	1.00%
Claim Liabilities	279,263,795	298,765,795	329,874,795	367,094,795
Net Position Balance	3,863,963	(15,638,037)	(46,747,037)	(83,967,037)

In the Primary Workers' Compensation Program, we only retain the first \$10 thousand of liability for the years 2009/10 forward. Since this is paid relatively quickly, the claims for these years are not discounted. Claim liabilities that are for years 2003/04 and prior, are discounted at 4%, because we have an aggregate stop loss policy covering these years and we do not expect to exceed the stop loss coverage until possibly 2023. Then we expect to pay off our liability over the next 25 years. The claims for the period 2004/05 to 2008/09 are fully insured.

The discount rate for each program is as follows:

<u>Program</u>	<u>Discount rate</u>
Primary Workers' Compensation	0% 2009/10 forward
Primary Workers' Compensation	4% 2003/04 and prior
Excess Workers' Compensation	3.75%
General Liability I	1.75%
General Liability II	no discount
Property	no discount
Medical Malpractice	1.75%
Dental	no discount

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

4. Claim Liabilities (continued)

A. Primary Workers' Compensation

The Primary Workers' Compensation (PWC) Program was established on July 1, 1997. The PWC Program is a full service program including claims administration. The Program blends pooling of workers' compensation claims with purchasing of insurance. The Program covers workers' compensation claims up to \$125 thousand, per occurrence. Claims in excess of \$125 thousand are the responsibility of the Authority's Excess Workers' Compensation Program.

The PWC Program has an aggregate stop loss policy in place with American Re Insurance Company for the years 1997 to 2004, as well as portfolio transfers that took place for claims prior to July 1, 1997. Workers' compensation portfolio claims incurred by the Santa Cruz County Fire Agencies Insurance Group prior to June 30, 2002, are not covered by any reinsured aggregate stop loss. The estimated ultimate claim cost has exceeded the aggregate stop loss limit. The discounted liability, above the aggregate stop loss limit, is \$4,823,392.

In March 2010, the Authority completed a Loss Portfolio Transfer to ACE Insurance Company of the claim liabilities for the July 2004 through June 2009 years. The transfer price was \$91,600,000. The Authority will continue to administer the claims and is responsible for the Unallocated Loss Adjustment Expense on a go forward basis for those claim years, but ACE is responsible for all claim payments.

For the 2009/10 through 2014/15 policy years, the Authority purchased insurance for claim liabilities in excess of \$10 thousand (per claim) up to \$125 thousand. At June 30, 2015, the outstanding PWC program claim liabilities are:

Claim Period	Estimated Ultimate Claim Cost	Claims Paid	Discount Amount	Ceded Liability	Net Claim Liability
July 1, 1997 to June 30, 2004					
Munich American Risk Partners to attachment point	\$ 260,355,525	\$ 260,355,525	\$ -	\$ -	\$ -
Reinsured layer	38,500,000	26,929,921	-	11,570,079	-
Above reinsured layer	9,490,190	-	4,666,798	-	4,823,392
Santa Cruz Fire Portfolio	10,034,679	9,634,003	-	-	400,676
2009/10 through 2014/15 policy year	70,602,000	55,152,930	-	-	15,449,070
Total PWC Claim Liabilities	\$ 388,982,394	\$ 352,072,379	\$ 4,666,798	\$ 11,570,079	\$ 20,673,138

4. Claim Liabilities (continued)

B. Excess Workers' Compensation

The Excess Workers' Compensation (EWC) Program was first established by the EIA in 1979. In recent years, the Authority had retained responsibility for the payment of workers' compensation claims in excess of each member's self-insured retention (SIR) up to \$5 million. On July 1, 2008, the structure of the Program changed with the EIA ceding 70% of the liability for the layer from the member's SIR to \$1 million to American Safety Casualty Insurance Company, with the EIA retaining 30% of that layer. Beginning July 1, 2010, the EIA began ceding 80% of the liability to CastlePoint National Insurance Company, with the EIA retaining 20%. Members' SIRs vary between \$125 thousand and \$5 million and are approved by the Underwriting Committee. The Authority's coverage responsibility has varied from 1979 to present, as follows:

November 1, 1979 to October 5, 1993	SIR to \$500k
October 6, 1993 to January 1, 1995	SIR to \$750k
January 1, 1995 to June 30, 2002	SIR to \$300k
July 1, 2002 to June 30, 2008	SIR to \$5M
July 1, 2008 to June 30, 2010	SIR to \$1M - 30%-EIA; 70% - American Safety Casualty Insurance Company
July 1, 2010 to June 30, 2012	SIR to \$1M - 20%-EIA; 80% - CastlePoint National Insurance Company
July 1, 2008 to June 30, 2011	100% from \$1M to \$5M above the SIR
July 1, 2011 to June 30, 2012	\$3.5M Aggregate deductible in the \$1M to \$5M layer
July 1, 2012 to June 30, 2013	\$23.8M aggregate deductible in the SIR to \$1M layer and \$4.1M aggregate deductible in the \$1M to \$5M layer
July 1, 2013 to June 30, 2014	\$19.9M aggregate deductible in the SIR to \$5M layer
July 1, 2014 to June 30, 2015	Core Tower - \$23.5M aggregate deductible in the SIR to \$5M layer. Educational Tower effective 1/1/15 - \$8.6M aggregate deductible.

The Board has established the target equity (net position) range for the Program, between \$30 million and \$67 million. To support that goal, the Underwriting Committee has made the following recommendations, which were adopted by the Board, to address the risk of adverse loss development. Starting in 2008/09 and continuing to 2014/15, the EIA has purchased insurance to reduce our pool exposure in the SIR to \$5 million layer. This transfer of risk significantly reduces the effect of adverse loss development in this insured layer. In addition, the confidence level (the percent at which future claims are funded) has been raised over the last few years and the pool layer premium has been calculated without regard to any savings from insuring the layer.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

4. Claim Liabilities (continued)

C. Primary General Liability

The Primary General Liability (PGL) Program was established in 1998. Each member of the PGL Program has a \$10 thousand deductible, per claim. Claim costs above the \$10 thousand deductible, and below the \$100 thousand limit, are the responsibility of the Authority's PGL Program. Coverage in the primary layer is written to follow the form of the General Liability I Program. Effective July 1, 2004, coverage was underwritten by the Authority and reinsured by Imagine Insurance Company, Limited (Imagine) through April 30, 2010, at which time the policy with Imagine was cancelled and coverage was bound with ACE Insurance Company. In fiscal year 2011/12, the Authority negotiated a commutation with Imagine. Imagine paid the Authority \$2.2 million to take back the claim liabilities. These claims are not discounted. The chart below shows the current structure of the Program.

Primary General Liability

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

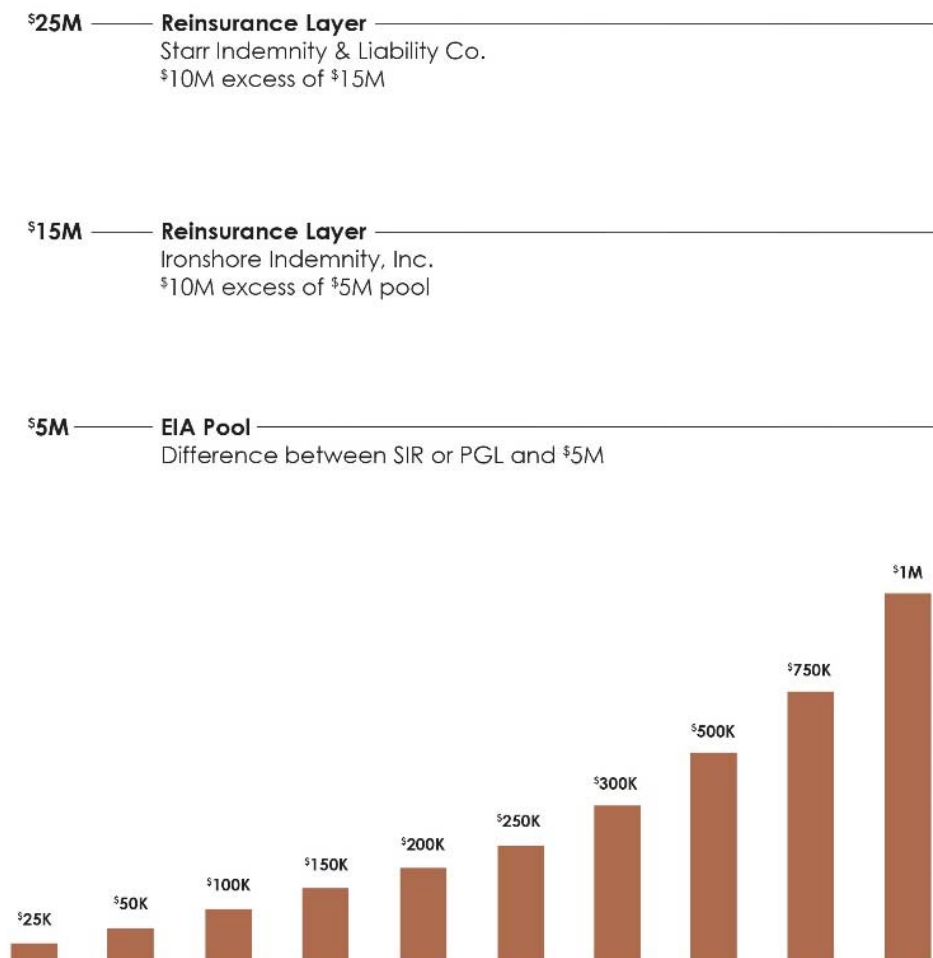

4. Claim Liabilities (continued)

D. General Liability I

The Authority's General Liability I (GLI) Program began pooling risk on July 1, 1985. The GLI Program combines risk retention, risk pooling and the purchase of excess reinsurance. Each member maintains an SIR between \$25 thousand and \$1 million. The Authority currently retains responsibility for claims in excess of each member's SIR up to \$5 million. Claim liabilities are recognized based on the actuarial estimate of the expected ultimate claim cost, discounted at 1.75%. Reinsurance has been purchased for claims in excess of the pool limits. Additional coverage can be added by purchasing optional excess liability insurance, which is available as part of the Miscellaneous Liability Programs. For the 2014/15 and 2013/14 fiscal years, the Authority retained the risk of \$5 million (inclusive of the members' SIR) and purchased reinsurance from \$5 million up to \$25 million.

The chart below shows the current structure of the Program.

General Liability I

*15 GLI Program members purchase additional limits through the Optional Excess Liability Program

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

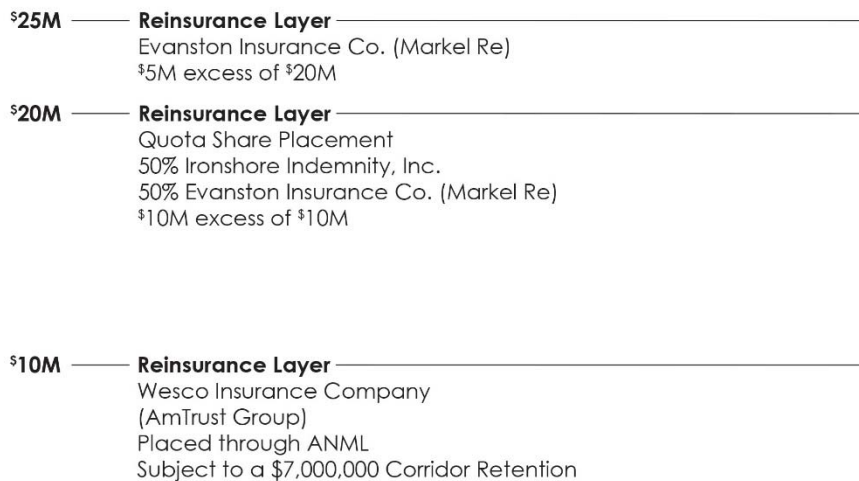

4. Claim Liabilities (continued)

E. General Liability II

The General Liability II (GLII) Program was designed to meet the liability insurance needs of the larger members. The Program began February 15, 1991. Each member is responsible for their SIR ranging from \$1 million to \$3 million. The 2013/14 policy year was written on a fully insured basis. The structure changed in the 2014/15 year and now includes a pool funded \$7 million corridor retention layer.

The chart below shows the current structure of the Program.

General Liability II

*8 GLII Program members purchase additional limits through the Optional Excess Liability Program

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

4. Claim Liabilities (continued)

F. Property

The Authority's Property Program was established to allow members to group purchase primary and excess property insurance. The coverage provides all risk, flood, boiler and machinery and earthquake limits. Members are responsible for deductibles ranging from \$5 thousand to \$150 thousand. There are other unique deductible requirements for specific types of claims including a 5% deductible applicable to earthquake claims. Optional coverage is available for contractor's equipment, auto physical damage, and fine arts.

The primary portion of the Property Program requires a three-year pre-payment of the premium. This prepaid insurance was financed, without creating budgetary hardships on members, by using the returned premiums from the canceled policies and resources from the EIA Treasury. Members are billed each July for the coverage period April 1st to March 31st. Premiums for the period April 1, 2015 to June 30, 2015, have been recognized as a receivable due from members. At each annual renewal, the Property Program has been rewritten, adding another year. In March 2015, the primary insurance policy was cancelled and rewritten for a three-year term, with pool limits of \$3 million per claim and \$10 million aggregate. Beginning in 2014, we partially funded an additional \$5 million catastrophic flood pool. Excess insurance provides coverage for flood, earthquake, and other catastrophic events with various limits. For purposes of excess coverage including flood and earthquake, member property is divided among eight placements of "towers" to spread exposures around the State. The structure of the Property Program is as follows:

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

4. Claim Liabilities (continued)

G. Medical Malpractice

The Medical Malpractice Program was established June 1, 1988, to provide medical malpractice, general liability, and blanket contract health coverage to public health facilities. The Program provides coverage to members with exposures ranging from large acute care hospitals to small public and mental health clinics. The Medical Malpractice Program combines risk retention, risk pooling, and the purchase of excess insurance. The pooled layer is \$1.5 million excess of each member's deductible or retention.

The Program is divided into two groups for underwriting purposes – Program I for larger members with self-insured retentions, and Program II for smaller members with deductibles. Medical Malpractice Program I members have a range of self-insured retention options from \$50 thousand to \$1.1 million. Medical Malpractice Program II members can elect deductibles from \$5 thousand to \$10 thousand.

The Program structure is illustrated in the following chart:

Medical Malpractice

CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014

4. Claim Liabilities (continued)

H. Dental

In the pooled Dental plan claim liabilities are very predictable based on capped benefits. The claim liability at June 30, 2015 of \$1.4 million is undiscounted and is considered short term.

5. Capital Assets

Capital assets include land, buildings, tenant improvements, furniture, equipment and software assets. Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

A capital asset summary of the land, buildings, and equipment is presented below:

	June 30, 2014	Additions	Deductions	June 30, 2015
Land	\$ 1,000,000	\$ -	\$ -	\$ 1,000,000
Depreciable Assets:				
Buildings and Tenant Improvements	7,855,823	221,989	(156,969)	7,920,843
Furniture and Equipment	1,205,018	50,243	(31,027)	1,224,234
Software	742,892	934,086		1,676,978
Lease Acquisition Costs	127,291	-	(127,291)	-
Total Depreciable Assets	9,931,024	1,206,318	(315,287)	10,822,055
Less Accumulated Depreciation	(2,516,577)	(576,833)	315,287	(2,778,123)
Net Depreciable Assets	7,414,447	629,485	-	8,043,932
Net Land, Buildings and Equipment	\$ 8,414,447	\$ 629,485	\$ -	\$ 9,043,932

Depreciation of furniture, equipment and software is reported as an operating expense in the General Administration Fund. Depreciation for the building and tenant improvements is reported in the Building Funds. Total accumulated depreciation is reported as follows:

	Balance at June 30, 2014	Additions	Reductions	Balance at June 30, 2015
Accumulated Depreciation Detail				
Buildings and Tenant Improvements	\$ (1,263,055)	\$ (317,138)	\$ 156,969	(1,423,224)
Furniture and Equipment	(947,001)	(105,623)	31,027	(1,021,597)
Software	(179,230)	(154,072)		(333,302)
Lease Acquisition Costs	(127,291)	-	127,291	-
Total	\$ (2,516,577)	\$ (576,833)	\$ 315,287	\$(2,778,123)

Depreciation is calculated using the straight-line method. The useful life for major classes of capital assets range from 60 years for the building, 10-25 years for tenant improvements of the EIA, over the lease terms of 5-10 years for leased tenant improvements, and 3-7 years for furniture, equipment and software.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

6. Operating Leases

The Authority has leased 94% of the first floor, of its two story building, at 75 Iron Point Circle. The Authority occupies the entire second floor. Leases with various commercial tenants have been executed for periods of 5 to 10 years, with one lease having additional options to extend, but none exceeding 10 years. The cost of tenant improvements for the space under lease is \$832,305, with accumulated depreciation of \$436,712. The cost of the building and improvements under lease is \$3,529,050, with accumulated depreciation of \$725,784. The following is the schedule of lease revenue receivable under these operating leases:

2016	\$	450,814
2017		460,021
2018		469,229
2019		478,436
2020 to 2021		551,992
Total	\$	<u>2,410,492</u>

7. Employee Retirement System

The Authority provides pension benefits to its employees through the 2% at age 55 Miscellaneous Plan, a cost-sharing multiple-employer defined benefit pension plan (Classic) maintained by CalPERS, an agency of the State of California. Effective January 1, 2013, new employees not eligible to participate in the 2% at 55 plan, are covered under the new Public Employees' Pension Reform Act Plan (PEPRA), which has a different benefit structure, 2% at age 62 and other differences. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California.

Collectively, the Classic Plan and the PEPRA Plan are referred to as the Plans. CalPERS issues a publicly available financial report that includes financial statements and required supplementary information for the Plans. This report is available at the CalPERS' website, www.calpers.ca.gov, under Forms and Publications

A. General Information about the Pension Plan

Benefits Provided

The benefits for the Plans are established by contract with CalPERS, in accordance with the provisions of the California Public Employees' Retirement Law (PERL). The benefits are based on members' years of services, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. To be eligible for service retirement, members must be at least 50 and a minimum of five years of CalPERS-credited services. Members after January 1, 2013 must be at least 52.

Contribution Description

Section 20814(c) of the PERL requires employer contribution rates for all public employers be determined on an annual basis by the actuary and are effective on the July 1 following notice of a change in the rate. The contributions are determined through the CalPERS' annual actuarial valuation process. The Plans' actuarially determined rate is based on the estimated amount necessary to pay the Plans' allocated share of the risk pool's costs of

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

7. Employee Retirement System (continued)

A. General Information about the Pension Plan (continued)

benefits earned by employees during the year, and any unfunded accrued liability. The Authority is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The Authority's required contribution rate on covered payroll for the measurement period ended June 30, 2014 (the measurement date) was 11.7% of pensionable pay for Classic employees and 6.5% for PEPRAs employees. Employer contributions rates may change if the Plans' contracts are amended. The Authority makes the contributions required of certain Authority employees on their behalf and for their account.

For the year ended June 30, 2015, the contributions recognized as part of pension expense was \$378,256.

Actuarial Assumptions

For the measurement period ended June 30, 2014 (the measurement date), the TPL was determined by rolling forward the June 30, 2013 TPL. The June 30, 2013 and June 30, 2014 TPL were based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry-Age Normal
Actuarial Assumptions:	
Discount Rate	7.5%
Inflation	2.75%
Salary Increases	Varies ⁽¹⁾
Investment Rate of Return	7.5% ⁽²⁾
Mortality ⁽³⁾	CalPERS' Membership Data
Post Retirement Benefit Increase	Up to 2.75% ⁽⁴⁾

⁽¹⁾ Depending on age, service and type of employment

⁽²⁾ Net of pension plan investment and administrative expenses, including inflation

⁽³⁾ The mortality table used was developed based on CalPERS specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, refer to the 2014 experience study report.

⁽⁴⁾ Contract COLA up to 2.75% until Purchasing Power Protective Allowance Floor on Purchasing Power applies

All other actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS website under Forms and Publications.

Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent. The long term expected discount rate of 7.50 percent is applied to all plans in the Public Employees Retirement Fund.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

7. Employee Retirement System (continued)

A. General Information about the Pension Plan (continued)

The 7.50 percent investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have been 7.65 percent. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability. This difference was deemed immaterial to the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations, as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1 - 10¹	Real Return Years 11+²
Global Equity	47.0%	5.25%	5.71%
Global Fixed Income	19.0	0.99	2.43
Inflation Sensitive	6.0	0.45	3.36
Private Equity	12.0	6.83	6.95
Real Estate	11.0	4.50	5.13
Infrastructure and Forestland	3.0	4.50	5.09
Liquidity	2.0	(0.55)	(1.05)

¹An expected inflation of 2.5% used for this period

²An expected inflation of 3.0% used for this period

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

7. Employee Retirement System (continued)

A. General Information about the Pension Plan (continued)

Sensitivity of the Authority's Proportional Share of the Net Pension Liability to the Changes in the Discount Rate

The following presents the net pension liability (asset) of the plan as of the measurement date, calculated using the discount rate of 7.50 percent, as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage-point lower (6.50 percent) or 1 percentage-point higher (8.50 percent) than the current rate:

	Discount Rate 1-1% (6.50%)	Current Discount Rate (7.50%)	Discount Rate +1% (8.50%)
Classic: Plan's Net Pension Liability (Asset)	\$ 3,552,204	\$ 1,993,749	\$ 700,338
PEPRA Plan's Net Pension Liability (Asset)	\$ 1,448	\$ 813	\$ 286

B. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

GASB 68 requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date (VD)	June 30, 2013
Measurement Date (MD)	June 30, 2014
Measurement Period (MP)	July 1, 2013 to June 30, 2014

At June 30, 2015 the Authority reported a net pension liability (NPL) of \$1,994,562 for its proportionate share of the Miscellaneous Pool's NPL.

The Authority's NPL for the Plan is measured as the proportionate share of the NPL. The NPL of the Plan is measured as of June 30, 2014. The total pension liability (TPL) used to calculate the NPL was determined by an actuarial valuation as of June 30, 2013 rolled forward to June 30, 2014 using standard update procedures. Using the Authority's individual employer rate plan's share of the risk pool TPL and Fiduciary Net Position (FNP), the proportionate shares of the TPL and FNP at the measurement date are determined for the Authority by the actuary. The Authority's proportionate share of the NPL as of June 30, 2014 was 0.08067% and .000003% for the Classic Plan and PEPRA plan, respectively. GASB 68 requires that the Authority report the proportions as a percentage of the total Public Agency Cost-Sharing Multiple-Employer Plan, which is comprised of CalPERS Miscellaneous Risk Pool and Safety Risk Pool (PERF C). The Authority's proportionate share of the NPL for PERF C as of June 30, 2014 was 0.03204% and .00001% for the Classic Plan and PEPRA Plan, respectively.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

7. Employee Retirement System (continued)

B. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

For the year ended June 30, 2015, the Authority recognized pension expense of \$378,256. At June 30, 2015, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between Expected and Actual Experience	\$ -	\$ -
Changes in Assumptions	-	-
Net Difference between Projected and Actual Earnings on Pension Plan Investments	-	(670,259)
Adjustment due to Differences in Proportions	-	(174,822)
Contributions Subsequent to the Measurement Date	587,253	-
Total	\$ 587,253	\$ (845,081)

The \$587,253 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the NPL in the year ending June 30, 2016. Other amounts reported as deferred outflows/inflows of resources related to pensions will be recognized as pension expense as follows:

Measurement Period Ended June 30:	Deferred Outflows/(Inflows) of Resources
2015	\$ (230,001)
2016	(230,001)
2017	(217,512)
2018	(167,567)
2019	-
Total	\$ (845,081)

8. Other Postemployment Benefits (OPEB)

A. Plan Description

The Authority's defined benefit postemployment healthcare plan, CSAC Excess Insurance Authority Postemployment Healthcare Plan (CSAC EIA OPEB), provides limited medical benefits for retired employees and their beneficiaries. CSAC EIA OPEB is affiliated with the CalPERS health care program. The Authority contributes these benefits to the agent

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

8. Other Postemployment Benefits (OPEB) (continued)

A. Plan Description (continued)

multiple-employer defined benefit postemployment healthcare plan administered by CalPERS Health Services Division. Retired employees and their beneficiaries must continue their participation in a CalPERS health care program to access CSAC EIA OPEB benefits.

CalPERS issues a publicly available financial report that includes financial statements and required supplementary information. Copies of CalPERS' annual financial report may be obtained from their executive office, 400 Q Street, Sacramento, California 95814.

The Public Employees' Medical and Hospital Care Act of the State of California assigns the authority to establish and amend benefit provisions to the CalPERS Board of Directors. The postemployment health care benefit rates per month, per retiree, have been established by the CalPERS Board of Directors, as shown below. Retirees, or their beneficiaries, are responsible for the remaining balance of their monthly health care cost.

Calendar Year 2013	\$115.00 per month
Calendar Year 2014	\$119.00 per month
Calendar Year 2015	\$122.00 per month
Thereafter	Adjusted by the CalPERS Board to reflect changes in the medical care component of the CPI

B. Funding Policy

The Authority is contractually required to contribute, at the rates assessed by CalPERS, as shown above. The Authority's accounting policy required that the unfunded net OPEB obligation be recognized as a liability of the General Administration Program, in accordance with GASB Statement 45. In September 2013, the Authority elected to participate in an irrevocable trust. The trust, California Employees' Retirement Benefit Trust (CERBT) fund, is administered by CalPERS. The Authority elected to fully fund the EIA OPEB liability at June 30, 2014 by accumulating assets in CERBT. There may be some small differences from year to year because investments earnings are not credited to the actuarial value of plan assets until the biennial actuarial report.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

8. Other Postemployment Benefits (OPEB) (continued)

B. Funding Policy (continued)

The Authority's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for fiscal years ended 2013, 2014, and 2015, were as follows:

Fiscal Year Ended	Net Employer Contribution	Annual OPEB Expense	% of Annual OPEB Expense Contributed	Net OPEB Obligation
June 30, 2013	\$ 10,272	\$ 75,036	13.69%	\$ 412,641
June 30, 2014	\$ 473,074	\$ 60,433	782.81%	\$ -
June 30, 2015	\$ 34,071	\$ 35,442	96.13%	\$ 1,043

The Authority's funding progress for other postemployment benefits as of the most recent valuation date July 1, 2014 is as follows:

Actuarial accrued liability (AAL)	\$ 377,960
Actuarial value of plan assets	-
Unfunded (Overfunded) actuarial accrued liability (UAAL)	<u>\$ 377,960</u>
Funded ratio (actuarial value of plan assets/AAL)	0.00%
Projected Covered Payroll (active plan members)	\$ 5,431,924
UAAL as a percentage of covered payroll	8.34%

The value of actuarial accrued assets (AAL) in CERBT as of June 30, 2015 was \$463,002.

The annual required contribution for the fiscal year ended June 30, 2015, and the net OPEB obligation as of June 30, 2015, was as follows:

Annual Required Contribution	
Normal Cost	\$ 36,177
Amortization of UAAL (30 Years)	(2,907)
Interest to June 30, 2014 and ARC Adjustment	<u>2,163</u>
Total Annual Required Contribution (ARC)	35,433
Interest on Net OPEB Obligation at beginning of year	(21)
ARC Adjustment for current fiscal year	30
Less Net Employer Contribution	(34,071)
Balance forward from 2014	<u>(328)</u>
Net OPEB Obligation (Asset)	<u>\$ 1,043</u>

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

8. Other Postemployment Benefits (OPEB) (continued)

B. Funding Policy (continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, immediately following the notes to the financial statements (in the Required Supplemental Information section), presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members), and include the types of benefits provided at the time of each valuation and historical pattern of sharing of benefit cost between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2013 actuarial valuation, the entry age normal cost level percent of pay method was used. The actuarial assumptions included a 6.5% investment rate of return (net of administrative expenses), an annual healthcare cost trend rate of 4.5%, and an open 20 year amortization period. The market value of assets method was used to determine the value of assets.

9. Reliance Contingent Receivable

The Authority has purchased insurance, and reinsurance, policies with Reliance Insurance Company. On May 29, 2001, Reliance was taken over by the State of Pennsylvania Insurance Department and is in the process of being liquidated. The State of Pennsylvania Department of Insurance was appointed as the liquidator. The Authority had coverage with Reliance for three of its programs; Excess Workers' Compensation (EWC), Primary General Liability (PGL), and Medical Malpractice. Although the Authority paid PGL claims that would have been covered by Reliance, the Authority is no longer pursuing any claims in bankruptcy.

The Authority had open Medical Malpractice claims for years 1988 to 2000 (insured by Reliance and reinsurance contracts). The Board approved an adjusted supplemental assessment of \$8,641,737, payable over five years, to so that Medical Malpractice claims were paid on a timely basis. The Authority has paid claims due from the Reliance reinsurance contracts totaling \$9,342,708. As of June 30, 2015, there were no outstanding reserves for the Reliance years. The Authority has hired legal counsel and is pursuing its claims in liquidation for the Medical Malpractice Program.

**CSAC EXCESS INSURANCE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED JUNE 30, 2015 AND 2014**

9. Reliance Contingent Receivable (continued)

The Authority estimates that the ultimate cost of the EWC claims for 1996/97, insured by Reliance Insurance Company, which are not covered by the California Insurance Guarantee Association (CIGA), is \$1.1 million and is included in claims liabilities.

10. Subsequent Events

In November 2015, the EIA entered into a contract with Munich Re, an excess carrier, on the EWC program to take back the claim liabilities that had been insured with Munich Re for the July 1997 through June 2004 years. Munich Re paid the EIA \$84,289,322 to assume undiscounted liabilities of \$82,103,422. As these liabilities will be paid over a long period of time, we present them discounted. The following table shows the amount at various discounted rates (what we expect to earn), and confidence levels. On the fiscal 2016/17 financial statements, the difference between the cash received for these liabilities and the discounted amount shown on the Statement of Net Position will increase Net Position overall, and in the EWC Program.

	Expected	70% CL	75% CL	80% CL	85% CL	90% CL
Undisc.	82,103,422					
Disc @ 1%	60,614,000	73,190,000	79,481,000	85,770,000	95,203,000	107,780,000

ALL PROGRAMS
NOTES TO EARNED PREMIUMS AND CLAIMS DEVELOPMENT INFORMATION
FOR THE TEN-YEAR PERIOD ENDED JUNE 30, 2015**

The following schedule illustrates how the Fund's earned premiums (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Fund as of the end of each of the last 10 years. The rows of the schedule are defined as follows:

1. This line shows the total of each fiscal year's earned premium, revenues ceded to reinsurers and stop-loss policies, and investment revenues. The total revenues are net of dividends returned to members.
2. This line shows the liability for unallocated loss adjustment expenses not allocated to individual claims.
3. This line shows the Fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event occurred that triggered coverage under the contract (called policy year).
4. This section of rows shows the cumulative amounts paid as of the end of each successive year for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each policy year.
6. This section of rows shows how each policy year's incurred claims increased or decreased as of the end of each successive year. These annual reestimations result from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.
7. This line compares the latest reestimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the schedule show data for successive policy years.

Total Claim Liabilities	<u>\$ 48,575,955</u>	<u>\$ 44,383,591</u>

**CSAC EXCESS INSURANCE AUTHORITY
PRIMARY WORKERS' COMPENSATION PROGRAM
NOTES TO EARNED PREMIUMS AND CLAIMS DEVELOPMENT INFORMATION
FOR THE TEN-YEAR PERIOD ENDED JUNE 30, 2015**

The following schedule illustrates how the Fund's earned premiums (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Fund as of the end of each of the last 10 years. The rows of the schedule are defined as follows:

1. This line shows the total of each fiscal year's earned premium, revenues ceded to reinsurers and stop-loss policies, and investment revenues. The total revenues are net of dividends returned to members.
2. This line shows the liability for unallocated loss adjustment expenses not allocated to individual claims.
3. This line shows the Fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event occurred that triggered coverage under the contract (called policy year).
4. This section of rows shows the cumulative amounts paid as of the end of each successive year for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each policy year.
6. This section of rows shows how each policy year's incurred claims increased or decreased as of the end of each successive year. These annual reestimations result from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.
7. This line compares the latest reestimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the schedule show data for successive policy years.

**CSAC EXCESS INSURANCE AUTHORITY
EXCESS WORKERS' COMPENSATION PROGRAM
NOTES TO EARNED PREMIUMS AND CLAIMS DEVELOPMENT INFORMATION
FOR THE TEN-YEAR PERIOD ENDED JUNE 30, 2015**

The following schedule illustrates how the Fund's earned premiums (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Fund as of the end of each of the last 10 years. The rows of the schedule are defined as follows:

1. This line shows the total of each fiscal year's earned premium, revenues ceded to reinsurers and stop-loss policies, and investment revenues. The total revenues are net of dividends returned to members.
2. This line shows the liability for unallocated loss adjustment expenses not allocated to individual claims.
3. This line shows the Fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event occurred that triggered coverage under the contract (called policy year).
4. This section of rows shows the cumulative amounts paid as of the end of each successive year for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each policy year.
6. This section of rows shows how each policy year's incurred claims increased or decreased as of the end of each successive year. These annual reestimations result from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.
7. This line compares the latest reestimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the schedule show data for successive policy years.

**CSAC EXCESS INSURANCE AUTHORITY
GENERAL LIABILITY I PROGRAM
NOTES TO EARNED PREMIUMS AND CLAIMS DEVELOPMENT INFORMATION
FOR THE TEN-YEAR PERIOD ENDED JUNE 30, 2015**

The following schedule illustrates how the Fund's earned premiums (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Fund as of the end of each of the last 10 years. The rows of the schedule are defined as follows:

1. This line shows the total of each fiscal year's earned premium, revenues ceded to reinsurers and stop-loss policies, and investment revenues. The total revenues are net of dividends returned to members.
2. This line shows the liability for unallocated loss adjustment expenses not allocated to individual claims.
3. This line shows the Fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event occurred that triggered coverage under the contract (called policy year).
4. This section of rows shows the cumulative amounts paid as of the end of each successive year for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each policy year.
6. This section of rows shows how each policy year's incurred claims increased or decreased as of the end of each successive year. These annual reestimations result from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.
7. This line compares the latest reestimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the schedule show data for successive policy years.

**CSAC EXCESS INSURANCE AUTHORITY
GENERAL LIABILITY II PROGRAM
NOTES TO EARNED PREMIUMS AND CLAIMS DEVELOPMENT INFORMATION
FOR THE TEN-YEAR PERIOD ENDED JUNE 30, 2015**

The following schedule illustrates how the Fund's earned premiums (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Fund as of the end of each of the last 10 years. The rows of the schedule are defined as follows:

1. This line shows the total of each fiscal year's earned premium, revenues ceded to reinsurers and stop-loss policies, and investment revenues. The total revenues are net of dividends returned to members.
2. This line shows the liability for unallocated loss adjustment expenses not allocated to individual claims.
3. This line shows the Fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event occurred that triggered coverage under the contract (called policy year).
4. This section of rows shows the cumulative amounts paid as of the end of each successive year for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each policy year.
6. This section of rows shows how each policy year's incurred claims increased or decreased as of the end of each successive year. These annual reestimations result from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.
7. This line compares the latest reestimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the schedule show data for successive policy years.

**CSAC EXCESS INSURANCE AUTHORITY
PROPERTY PROGRAM
NOTES TO EARNED PREMIUMS AND CLAIMS DEVELOPMENT INFORMATION
FOR THE TEN-YEAR PERIOD ENDED JUNE 30, 2015**

The following schedule illustrates how the Fund's earned premiums (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Fund as of the end of each of the last 10 years. The rows of the schedule are defined as follows:

1. This line shows the total of each fiscal year's earned premium, revenues ceded to reinsurers and stop-loss policies, and investment revenues. The total revenues are net of dividends returned to members.
2. This line shows the liability for unallocated loss adjustment expenses not allocated to individual claims.
3. This line shows the Fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event occurred that triggered coverage under the contract (called policy year).
4. This section of rows shows the cumulative amounts paid as of the end of each successive year for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each policy year.
6. This section of rows shows how each policy year's incurred claims increased or decreased as of the end of each successive year. These annual reestimations result from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.
7. This line compares the latest reestimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the schedule show data for successive policy years.

**CSAC EXCESS INSURANCE AUTHORITY
MEDICAL MALPRACTICE PROGRAM
NOTES TO EARNED PREMIUMS AND CLAIMS DEVELOPMENT INFORMATION
FOR THE TEN-YEAR PERIOD ENDED JUNE 30, 2015**

The following schedule illustrates how the Fund's earned premiums (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Fund as of the end of each of the last 10 years. The rows of the schedule are defined as follows:

1. This line shows the total of each fiscal year's earned premium, revenues ceded to reinsurers and stop-loss policies, and investment revenues. The total revenues are net of dividends returned to members.
2. This line shows the liability for unallocated loss adjustment expenses not allocated to individual claims.
3. This line shows the Fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event occurred that triggered coverage under the contract (called policy year).
4. This section of rows shows the cumulative amounts paid as of the end of each successive year for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each policy year.
6. This section of rows shows how each policy year's incurred claims increased or decreased as of the end of each successive year. These annual reestimations result from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.
7. This line compares the latest reestimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the schedule show data for successive policy years.

**CSAC EXCESS INSURANCE AUTHORITY
EIAHEALTH PROGRAM
NOTES TO EARNED PREMIUMS AND CLAIMS DEVELOPMENT INFORMATION
FOR THE TEN-YEAR PERIOD ENDED JUNE 30, 2015**

The following schedule illustrates how the Fund's earned premiums (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Fund as of the end of each of the last 10 years. The rows of the schedule are defined as follows:

1. This line shows the total of each fiscal year's earned premium, revenues ceded to reinsurers and stop-loss policies, and investment revenues. The total revenues are net of dividends returned to members.
2. This line shows the liability for unallocated loss adjustment expenses not allocated to individual claims.
3. This line shows the Fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event occurred that triggered coverage under the contract (called policy year).
4. This section of rows shows the cumulative amounts paid as of the end of each successive year for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each policy year.
6. This section of rows shows how each policy year's incurred claims increased or decreased as of the end of each successive year. These annual reestimations result from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.
7. This line compares the latest reestimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the schedule show data for successive policy years.

NOTES TO EARNED PREMIUMS AND CLAIMS DEVELOPMENT INFORMATION
FOR THE TEN-YEAR PERIOD ENDED JUNE 30, 2015**

The following schedule illustrates how the Fund's earned premiums (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Fund as of the end of each of the last 10 years. The rows of the schedule are defined as follows:

1. This line shows the total of each fiscal year's earned premium, revenues ceded to reinsurers and stop-loss policies, and investment revenues. The total revenues are net of dividends returned to members.
2. This line shows the liability for unallocated loss adjustment expenses not allocated to individual claims.
3. This line shows the Fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event occurred that triggered coverage under the contract (called policy year).
4. This section of rows shows the cumulative amounts paid as of the end of each successive year for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each policy year.
6. This section of rows shows how each policy year's incurred claims increased or decreased as of the end of each successive year. These annual reestimations result from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.
7. This line compares the latest reestimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the schedule show data for successive policy years.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the CSAC Excess Insurance Authority's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Authority's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time. They show how revenues and expenses have developed over years. They show how our Net Position has increased, then fallen and increased again.

	<u>Page</u>
Schedule of Net Position.....	194
Schedule of Revenues, Expenses and Changes in Net Position	195
History of Dividends Returned to Members.....	196

Demographic and Economic Information

These schedules offer demographic and economic information indicators to help the reader understand the environment within which the Authority's financial activities take place. The number of Workers' Compensation, General Liability I, Property, and Medical Malpractice claims is an indicator of the Provision for Claims. Payrolls for Workers' Compensation and General Liability I, together with claims experience are an indicator for premium revenues. Property values are indicators for Property premiums.

	<u>Page</u>
Economic Statistics	197
Number of Claims	198
Property Values.....	199

Operating Information

These schedules contain information regarding Authority employees by department, member participation by program, and the growth of office space.

	<u>Page</u>
Operating Indicators and Statistics	200

Schedules showing trends for property tax rates and revenues along with corresponding assessed valuations are not presented since the Authority does not levy such taxes.

Schedules showing bonded debt and related legal debt ratios are also not applicable.

**CSAC EXCESS INSURANCE AUTHORITY
ECONOMIC INDICATORS AND INFORMATION
FOR THE 10-YEAR PERIOD ENDING JUNE 30, 2015**

The best economic indicator of the financial stability for the CSAC Excess Insurance Authority is the estimation of incurred claims expense (line 6) and claims paid (line 3) reported in the Schedule of Claim Development and Earned Assessments in the Required Supplemental Information section of the CAFR's Financial Section. Other relevant economic and demographic information would include trends for the number of claims, covered payrolls, property values, and EIAHealth employees and lives covered as shown on the following charts.
