

COVID-19 TESTING SERVICES

PRISM partners with the industry's best to provide services that are second to none.

PRISM has partnered with Plexus Global to provide CRL Rapid Response™ COVID-19 saliva test kits that are shipped to the member, with prepaid shipping packages for test kits to be sent to the lab for analysis.

Services Include

- Non-invasive, saliva based PCR kits allow employees to self-collect test samples
- Testing kits are sent directly to the member for easy distribution to employees
- Easily return saliva sample using prepaid envelope included in every kit

To get started, please contact:
Jessica Rubio, Client Support Specialist
covid19testing@plexusglobalinc.com
951.335.4900 | 844.516.1008 EXT. 1003

Secure & Convenient

Two-factor authentication process offers quick, secure access to results from any internet connected device.

Flexible

Results are also reported back to employer via preferred setup, such as Web OASIS, WorkForce, HL7, API (XML).

Discounted Pricing

Packages have been specifically designed for unique public entity needs.

Quick Start Steps

1. Contact Plexus Global to discuss COVID-19 testing needs and sign the Service Agreement.
2. Plexus Global will assist in setting up an online account with CRL Labs through their Oasis portal: <https://oasis.crlcorp.com/>. This portal is used to view testing results.
3. Testing kits are ordered directly from Plexus Global in sets of 10.
4. Testing kits are distributed to employees, who follow the steps to register their kit online, collect the saliva sample, and return the sample to CRL Labs using the prepaid packaging included in the kit.
5. Results will be available through CRL's Oasis portal within 24-48 hours after the kit is received by the lab.
