What the plan offers

Features include low copays and preventive care at no added cost.

Health coverage that fits your budget

The plan includes low premiums and flat copays for office visits. See Page 4 for a list of premiums by area and county.

The ability to lower your deductible

Earn credits and meet your health goals when you participate in programs, such as ConditionCare and Virtual Second Opinion, at no extra charge. Even if you don't qualify for these programs, you'll still receive the credits.

You don't pay coinsurance or a deductible when you see a doctor in the PERS Gold plan network (Select PPO preferred providers).¹

Access to the doctors and hospitals you want to use

You have the freedom to select local providers you may already know. If you travel out of state or overseas, you have access to the BlueCard PPO network when you need care. See "Your coverage travels with you" on Page 9 for more information.

Enhanced benefits

You can have up to 20 combined visits each year with an acupuncturist or chiropractor in the plan's network.

Do healthy activities to lower part of your deductible

Every year that you're enrolled in the PERS Gold plan, you can **earn up to \$500 in credits toward your in-network deductible**. To collect each of the \$100 credits shown below, complete healthy activities like receiving a flu shot and a health screening. There is no extra cost for these activities. Combined family deductible credits will not exceed \$1,000 for subscriber, spouse, or domestic partner.

Dependents of any age (other than a spouse or domestic partner) will automatically receive all five credits applied at the beginning of the year.

Here is what you need to do:

| Activity: | You need to: | Earn this credit: |
|---|--|-------------------|
| Flu shot | Receive a flu shot at a pharmacy in your plan's network or at your doctor's office. ⁷ | \$100 |
| Nonsmoking certification | Let us know that you don't smoke by completing the health assessment on the Sydney Health app. If you do smoke, complete a quit-smoking program at no extra cost. | \$100 |
| Biometric screening | Do the test at your doctor's office or one of the 2,200 Quest Diagnostics Patient Service Centers. If a center is not near you, order an at-home test kit. The test checks your blood pressure, cholesterol level, glucose, and A1c, as well as your body mass index (BMI). You will receive your screening results both online and in the mail. ⁸ | \$100 |
| Virtual Second Opinion program ⁹ | See if you need a second opinion for a nonurgent or nonemergency surgery scheduled in 2024. Call 888-361-3944 , Monday through Friday, 5:30 a.m. to 8 p.m. PT, or visit a doctor in the PERS Gold plan network. | \$100 |
| ConditionCare Certification ¹⁰ | Take part in the ConditionCare program if you have asthma, diabetes, chronic obstructive pulmonary disease (COPD), heart failure, or coronary artery or vascular disease. If you qualify, call 866-962-0957 to join the program. (You'll receive a letter or call from the ConditionCare team if you're eligible.) | \$100 |

Your savings can add up

If you qualify for all five credits, your 2024 in-network deductible will be:

- \$500 for an individual (instead of \$1,000).
- \$1,000 for a family (instead of \$2,000).

To see your in-network deductible credits, use the **Sydney Health** app. Learn more about this app on the next page.

Visits cost **\$10 each**. **LiveHealth Online is available for mental health issues, too.** If you feel anxious or stressed, make an appointment with a psychologist or licensed therapist and have a video visit in four days or less.¹³ Appointments are available seven days a week and cost **\$10 for each visit**.

Building Healthy Families

The Building Healthy Families program (previously Future Moms) is an all-in-one program that offers personalized support to help growing families tackle every stage of growth, from family planning and pregnancy through the toddler years. No matter how you've built and grown your family, the resources, tools, and information on your profile will be personalized to your individual needs.

With Building Healthy Families, expectant mothers have access to a maternity nurse via phone through pregnancy and postpartum, including access to virtual lactation support, if needed. In addition to phone support, the program offers 24/7 digital support at no cost through the **Sydney Health** app or on [anthem.com/ca](https://www.anthem.com/ca). This convenient online hub offers an extensive collection of tools and information to help navigate your family's unique journey.

To enroll, log in to **Sydney Health** or [visit anthem.com/ca](https://www.anthem.com/ca) and go to *My Health Dashboard*. Choose the **Building Healthy Families** tile under *Featured Programs*.

Your coverage travels with you

While traveling, you'll save money and avoid having to fill out claim forms when you see a doctor or use a hospital through the **BlueCard program**.

If you travel overseas, the **Blue Cross Global Core program** will give you access to doctors and hospitals in 190 countries and territories around the world for urgent or emergency care.¹⁴

If you have questions about BlueCard or Blue Cross Global Core, call the Blue Cross Blue Shield Global Core Service Center 24/7 at **800-810-BLUE (2583)**.

Save with the Value-Based Site of Care program

If you need a procedure, such as an arthroscopy or a colonoscopy, you can save money by going to an ambulatory surgical center (ASC) instead of a hospital. By using an ASC that is part of this program, you'll have little to no out-of-pocket costs, other than the plan's deductible and your coinsurance.

Other procedures that are part of the program include gall bladder removal, sigmoidoscopy (a test that examines your large intestine, similar to a colonoscopy), hernia repair, and nasal or sinus corrective surgery. To learn more, or to make sure a center is part of the program, call Customer Service at **877-PERSPPO (877-737-7776)**.
